Lindbergh Voted Congressional Honor Medal By House

CALL RECESS
IN HONOR OF
NOTED FLYER

Famous Aviator Paid Highest Honor in Power of Representatives to Give SOLONS APPLAUD HERO

Airman Blushes, Smiles at Prolonged Cheers When Presented by Longworth

(By United Press) WASHINGTON, Dec. 10.—The house of representatives today paid Charles A. Lindbergh the greatest honor in its power to give. It recessed in his honor, a rarely conferred homage. Then it voted to bestow on the New York-to-Paris flyer the famous congressional medal of honor.

Necessary senate approval of the medal is expected later.

Lindbergh was paid such homage by the house as been given out few times in history.

On motion of Republican Floor Leader Tilson, the members filed by to greet the young New York-to-Paris flyer. A prolonged cheer went up.

Blushing and smiling, Lindbergh was presented to the house by Speaker Longworth as "America's most attractive citizen."

As he came forward and stood by Longworth, the house broke into prolonged applause, echoed by crowds in the galleries.

President Machado, of Cuba, has invited Lindbergh to fly to Havana in connection with his projected flight from here to Mexico City, the state department revealed today.

Lindbergh's appearance was

26 SEEKING PAROLE FROM STATE PRISON

FOLSOM PRISON, Calif., Dec. 10.—Two murderers, serving life sentences, and 46 other convicts were among the candidates for parole from Folsom state prison, scene of the Thanksgiving day riot as the state board of prison directors met for its monthly session.

The two slayers seeking paroles are Jose Rodriguez of San Francisco and George F. Green, Los Angeles. The parole list also included 16 prisoners sentenced from Los Angeles, nine from San Francisco and five from Alameda county.

A total of 171 prisoners serving indeterminate sentences will have their sentences definitely fixed by the board. Charles L. Nettmiller, of Stockton, president of the board, will preside.

Famous French Aviator Killed

PARIS, Dec. 10.—The famous French aviator, Charles Pierre Corbu, and his mechanics were killed today near Le Bourget flying field when a plane crashed on a trial flight, it was announced here.

FLAPPER FANNY SAYS:

Federal Court
Upholds Rail
Value System

St. Louis Case May Prove Precedent of \$15,000,000 Actions

(By United Press)

WASHINGTON, Dec. 10.—The interstate commerce commission system of valuing railroad properties was upheld today in a decision handed down by Federal District Judge Charles B. Faris, in the St. Louis and O'Fallon case.

The decision, if it is upheld by the United States supreme court, will set a precedent for deciding cases involving \$15,000,000.

The suit itself, however, involved only \$226,000 in excess profits of the St. Louis and O'Fallon road, which the government sought to collect under the recapture clause of the railroad law.

The St. Louis and O'Fallon railroad sought an injunction in federal district court here against an order of the interstate commerce commission requiring the road to pay the government \$226,830 in alleged excess earnings.

Similar action is contemplated by virtually every other major railroad in the country in an effort to determine whether their combined valuation shall be fixed by the commission at approximately \$20,000,000,000 or at approximately \$35,000,000,000.

Under the transportation act, interstate state railroads are permitted to earn six per cent of their valuation but they must pay over to the government one-half all earnings in excess of that amount. The total recapturable amount involved among all the roads has been estimated at \$400,000,000.

The commission contends that valuation of railroad property should be on a basis of costs, prices and wages of 1914, while the roads contend that such a basis fails to give due and effective weight to the enhanced cost of construction as applied to all the property of the carriers in existence.

WASHINGTON, Dec.

HIGHEST HONOR OF U. S. GIVEN TO LINDBERGH

72 New Families
In Five Days Is
New Record Here

(Continued From Page 1)

greeted by tumultuous cheers as members of the house crowded to Speaker Longworth's rostrum to shake Lindbergh's hand.

Then Lindbergh left the chamber.

Representative Snell, Republican, New York, presented a bill of Representative Cochran, Democrat, Missouri, to bestow the medal on the aviator.

Longworth immediately rapped his gavel and, without taking a vote, shouted:

"The bill is passed."

The house laughed and yelled its approval.

For "Heroic Courage"

The bill authorized President Coolidge to bestow the medal in the name of congress "for displaying heroic courage and skill as a navigator, at the risk of his life, by his non-stop flight in his plane, the 'Spirit of St. Louis,' from New York city to Paris, France, on May 20-21, 1927, by which he not only achieved the greatest individual triumph of an American citizen, but demonstrated that travel across the ocean by aircraft was possible."

Triumphant generals returning victoriously from war and foreign potentates and officials are the only ones previously to have received such honor as today was accorded Lindbergh.

WALKER'S TOMORROW

GIVEN 14 YEARS ON CHARGE OF ASSAULT

TUCSON, Ariz., Dec. 10.—Convicted on a charge of attempted assault on a 13-year-old school girl, Thomas Felsor, former United States army recruiting sergeant, today faced from eight to 14 years in the state penitentiary.

The former army officer, sentenced by Superior Judge Gerald Jones, is a veteran of three enlistments. Judge Jones issued a warning that other men who have been approaching young girls would find similar sentences awaiting them if they were brought before him.

Disappearance Of Motorist Probed

LOS ANGELES, Dec. 10.—Disappearance into the hills at Quail lake, on the Ridge route, of a man believed to have deserted a car registered to F. E. Nickel, 624 Gallish street, Fresno, was being investigated by deputy sheriffs today.

The man was seen to drive into the hills early Thursday and, when he failed to return, a party of deputy sheriffs made up a searching party and found the automobile abandoned. Apparently nothing had been taken from the car.

LOOKING FOR NEW COACH

Alabama Poly, in considering applications for a new coach, is said to have considered more than 60 coaches.

THEY HOLD SENATE'S BALANCE OF POWER

These are the nine insurgent senators who hold the balance of power in the upper chamber during the present session of congress. In votes along party lines, theirs will be the decisive ballots. They are: (1) Brookhart, of Iowa; (2) Nye, North Dakota; (3) Howell, Nebraska; (4) Blaine, Wisconsin; (5) Shipstead, Minnesota; (6) Borah, Idaho; (7) Norris, Nebraska; (8) La Follette, Wisconsin, and (9) Frazier, North Dakota.

FEDERAL COURT UPHOLDS RAIL VALUE SYSTEM

(Continued from page 1)

ence prior to 1914."

If the higher valuation is allowed higher rail rates would be legal. The government estimates the net increase at 18 per cent while the roads argue that an increase of six or eight per cent would be sufficient.

In view of the "key" nature of the O'Fallon case, an appeal direct to the supreme court is regarded as certain.

December 19 was set as the date for filing decree for hearing motions of appeal here. It was considered virtually certain the road would appeal.

The decision, although handed down and concurred in by Judge Faris, as well as by Circuit Judge Arbas Van Valkenburgh, was written by Circuit Judge Klimbaugh Stone, of Kansas City.

Briefly the decision upholds the "prudent investment" theory of valuation as opposed to the "reproduction new" method.

Judge Stone's decision handed down by Judge Faris here did not go into a detailed discussion of the proper method of valuation, but held that the order of the interstate commerce commission was not open to attack on the ground of wrong valuation.

Commerce Commission Silent On Decision

WASHINGTON, Dec. 10.—The interstate commerce commission withheld comment today on its victory in the St. Louis and O'Fallon case, awaiting the decision text.

It was said unofficially that reports of the decision indicated it was a sweeping vindication of the commission's valuator method.

Hopes For Agreement

"Telegraphic dispatches from California advise me that negotiations are being actively carried on at the present time to compose the differences existing among the states. I am hopeful that these may result in an agreement. I know that California will go the limit in the endeavor to reach an adjustment and that the representatives of California are acting upon this theory because they will go much more than half way."

"I feel that it is by no means impossible that within a very brief period the lower basin states will present a united front in behalf of this beneficent measure. In any event, however, the need is so pressing and the advantages of the project so obvious that we shall go forward as best we can with the bill in congress."

King Of Kings' Madonna Given Divorce Decree

LOS ANGELES, Dec. 10.—The divorce decree of Dorothy Cummings Dakin, who played the role of the Madonna in "The King of Kings," from Frank Elliot Dakin, English actor, was on record in superior court here today.

The decree was granted on the grounds of cruelty. They were married in Santa Barbara April 4, 1922.

Convictions In Contempt Action Are Anticipated

(Continued From Page 10)

produced Thursday by the government. This was the disclosure of a report by Burns Agent Frank S. O'Reilly, stating he interviewed a relative of the juror.

Kidwell's testimony will not come until after the government finishes with Charles G. Ruddy, chief of the Burns jury shadowers, who has been on the stand for two days, identifying documents. He will resume Monday morning for more government questions, and later defense cross examination.

Phipps Proposes Substitute For Boulder Measure

(Continued From Page 1)

trol and irrigation purposes and would give the Secretary of the Interior the right to lease the use of water for power purposes to private corporations.

In an accompanying statement, Senator Phipps declared that he agreed with the attitude of President Coolidge in opposition to the federal government engaging in the power business.

Bill Reintroduced

The Boulder dam bill again was introduced in the senate yesterday by Senator Johnson. In a brief statement, Senator Johnson said:

"The bill introduced today, authorizing the Boulder dam project, is substantially the bill that was before the last congress. Both measures are written around the Colorado river compact in order that the upper basin states may be thoroughly protected in the allocation of the waters of the Colorado river.

"The federal government has the undoubted right to direct that the waters stored in any remedial work of the government shall be utilized in a specific fashion and the Boulder dam project contemplates use in accordance with the Colorado river compact."

Rain which has been falling here

intermittently reached a total of .34 of an inch, with unsettled weather predicted over the week end according to the official forecast.

Cold Snap Due To Strike State

SAN FRANCISCO, Dec. 10.—Moving down from the north on the heels of a storm that brought precipitation to practically all sections of northern and central California, a cold snap was due to strike the state tonight.

The U. S. weather bureau office here issued warnings of heavy frost and sub-normal temperatures.

Banker And Sons Buried In Triple Funeral Services

PASADENA, Dec. 10.—Triple funeral services will be held here today for Francis B. Stevens, prominent banker, who, in a fit of despondency, killed himself and his two sons, Francis Jr., 20, and George, 15.

It is not believed that the widow and her 18-year-old daughter, Carol, will be able to attend the services.

10 LAKE BOATS ARE REPORTED TO BE MISSING

(Continued from Page 1)

21 men were revived by reports reaching here today.

The tug Strathbogie, of the Great Lakes Transportation company, has started in an attempt to reach the stricken craft which is about a mile off the island's shore.

The report said the Agawa was breaking up fast. A large piece of her stern had been driven ashore, making it appear that the end was entirely gone. The men were in danger of death either from drowning or exposure should they be forced to take to the water. The ship was covered over by ice.

First Air Mail Plane

Arrives In Denver

DENVER, Dec. 10.—Bucking dense fog, snow and high winds along its entire route, the first Western Air Express Mail plane arrived in Denver from Cheyenne today.

The plane's arrival here started regular mail service by the firm over the Cheyenne-Denver-Pueblo route. After unloading mail and swallowing a cup of coffee Lt. C. A. Maxwell, pilot, left immediately for Pueblo.

Light Snow and Rain For Missouri, Kansas

KANSAS CITY, Mo., Dec. 10.—Light snow and rain today and tomorrow is the weather forecast for Missouri and Kansas, temperatures were expected to go to 35 degrees today. The minimum last night was 11 degrees above.

'GIRL OF OZARKS'

GETS ANNULMENT

LOS ANGELES, Dec. 10.—The elements in a variety of unusual guises descended upon Southern California today, with hail, lightning and thunder in the bay district, snow in the mountains and rain generally throughout the Southland.

An airplane which was sighted three miles out at sea from Santa Monica heading into the teeth of the storm is reported to have landed safely at Santa Barbara.

A heavy hail and rain storm struck this city and Santa Monica, a three-inch coat of hail-stones, resembled a thin sheet of snow covering the streets. The unusual fall of hail was preceded by severe rain, thunder and lightning.

The mountains received their first light fall of snow this season with 12 inches at Big Pine, five inches at Mt. Wilson, one to seven inches at Mt. Baldy and from four to six inches at Big Bear.

Rain which has been falling here

intermittently reached a total of .34 of an inch, with unsettled weather predicted over the week end according to the official forecast.

A WORD OF COMFORT

"The consciousness that God loves you and your dependents and that He has promised you that you will be together in Paradise, if you earnestly strive to be true, creates a powerful impulse and motive for surety endeavor.

Griously but surely, you give it room in your heart; it changes a sluggish, inert life into one of eager activity and enthusiasm. You become like a battery which has been recharged with energy, and you invest the best that is in you in trying to do your duty well."

Rosenshine, while he made no direct reference to the State Tax commission, indicated in his statement that he feels the commission should completely revamp the tax system. The banking attorney, incidentally, served during the famous King Tax Bill fight with former Senator William J. Carr of Pasadena on the joint legislative revenue and taxation committee. Carr is now a member of the tax commission named to inquire into the state's revenue needs.

Rosenshine, in his statement, also defended the present method of state financing as "faulty," asserting that "each department makes its own budget demand higher than its needs, in anticipation of the blue pencil of the board of control, which cuts the requested budget to a lower figure than it believes will suffice, because it expects to have to raise it."

"Between these factions," continues Rosenshine, "sits the legislature, trying vainly to find the truth of the matter. This method of haggling and bargaining is unscientific to say the least."

The present budget law of the state which gives to one man, the governor, the power to amend individual items of the budget, is "undemocratic," the banking lawyer further asserted. "It is a poor governor who can not assemble one-third plus one of the votes in the legislature to uphold his budget vetoes, and this fact leaves the governor with too much power and the legislature with practically no voice."

Reverting to the tax problem, now being studied by Governor Young's commission, Rosenshine said:

"Our California system of taxation is wrong in theory because it creates two classes of taxpayers who are at perpetual war. The theory is that all state government support shall be derived from corporate franchise taxes, public utility taxation, etc., and that city and county taxes shall be raised on real estate and physical values."

The main result of this division of interest is that the people are always willing to increase the expenses of the state, not realizing that when the state's income under the present rates of taxation is exhausted, those rates must either be increased or an ad valorem tax be levied by the state on the people at large. Also, the people do not realize that a large part of the taxes which support the state are passed on to the people in rates."

While the increase in government costs under Governor Young's administration have been comparatively low, asserts Rosenshine, expenditures since 1917 have been

Rain fell intermittently through the night and heavy storm clouds hung over the city this morning giving little hope of clear weather or the contest.

Wet Field Looms For J. C. Contest

SACRAMENTO, Dec. 10.—Rainy weather was in prospect here to play for the "Big Game" between San Bernardino junior college and Sacramento, junior college to determine the championship of the California coast conference.

Rain fell intermittently through the night and heavy storm clouds hung over the city this morning giving little hope of clear weather or the contest.

**CHILD RELIEF SOCIETY TO ASK PARENTS TO ABSOLVE ASSOCIATION IN TREATING**

Meeting at Elks' Club, Anaheim, yesterday, directors of the Crippled Children's Relief Association of Orange county definitely decided to require parents to sign an agreement releasing the association from liability should injury follow treatments given to crippled children in an effort to correct deformities.

H. D. Riley, president of the association, pointed out at the meeting that the organization had not been taking advantage of a law making it possible to secure such a release from the parents of children coming under observation and treatment of the organization.

The president gave emphasis to the fact that the association's activities in behalf of deformed children in the county is strictly voluntary and entirely in the interest of such children, and for that reason it should protect itself against possible suits by parents who may feel that their child has been injured rather than benefited by operations deemed necessary to correct a deformity.

Miss Bertha Strange, of San Francisco, executive secretary of the California Society for Crippled Children, was present, and discussed various phases of the recent law passed by the state legislature providing for conduct of the state and county societies and associations.

The secretary gave out the information that there are 46 orthopedic doctors in the state, 21 of whom are located in the southland.

President Riley reported that progress is being made in the school census being made in the county and that results so far had shown that there are a large number of pupils in the county schools who are defective mentally but who are not "body cripples." When the survey is completed data will be available as to the number of children who are crippled, blind and deficient in mentality.

Mrs. Grace Crowell, superintendent of the county association, revealed that 28 patients were under observation during the month and that 162 treatments had been given.

Commenting on procedure of the association with reference to acceptance of cases, President Riley said:

"All new cases reported are first turned over to the Orange county hospital investigator to determine whether they would come under county aid as indigents.

"If they are classed as indigent, we carry on the treatment and the county is billed at the end of the month for 75 cents an hour for the time spent in treating the case and 6 cents a mile for mileage travelled to care for it.

"If not accepted as indigent, the case then is referred to our investigating committee for a recommendation as to how the case should be handled, and how much the patient should pay, and when."

Announcement was made by Miss Strange that the annual meeting of the California society would be held at Long Beach January 6 and 7.

The January meeting of the board of directors will be held at St. Ann's Inn, Santa Ana, the second Friday in the month.

ASSAULT CHARGE IS FILED AGAINST MAN

The glancing blow with a hatchet which Socorro Ortiz, 40, is said to have struck at his wife, Belen Ortiz, 37, December 2, had resulted in turning her into Superior Judge E. J. Marks' court, where Deputy District Attorney Sam Collins filed information against him charging assault with a deadly weapon. Ortiz will answer his arraignment next Friday.

At the time the blow was struck he is said to have been crazed with drink. His wife, turning her head on hearing his approach, narrowly averted death, it is believed, when the weapon struck her. She and Ortiz had been estranged for the past year.

HANSEN

HANSEN, Dec. 10—Mrs. G. E. Kitchen's sister, Mrs. R. L. Wilkinson, of Santa Cruz, who has been visiting here for some time, is the mother of a baby girl, Mrs. Mary Lovell. She was born in Orange county and raised in this community and Santa Ana. She expects to remain in the south most of the winter.

Mrs. William Morgan, who has been very ill, is some improved. Her son, Henry Morgan, and wife are with her. On Wednesday evening Harvey Bowman and wife called on her.

D. A. Woodward has returned from making a three weeks' business trip to Vancouver.

Mrs. Minge, of Santa Ana, spent Wednesday with her daughter, Mrs. R. Heitzhusen.

Ralph Shearer has quit his job at Fullerton and is home on his ranch. Paul and Lee Benson and their mother, Mrs. Nellie Benson, drove to Long Beach on Friday to visit relatives.

DIDN'T LIKE HIS OWN

"Pop" Warner, in selecting his All-American team, did not place a single member of Stanford's eleven on either the first or second team.

rapidly outstripping the increase in income.

The theory that state revenues will increase proportionately with the growth of government is not a theory at all, but a fallacy, declares Rosenshine. Expenditures for the biennium, 1927 to 1929, despite an increase of only 7.3 per cent over the preceding biennium, are triple the expenditures during the 1917-1919 biennium, he concludes.

DATE NOT SET FOR RE-TRIAL OF P. GOODWIN

That a week probably will elapse before developments will materialize in Santa Ana in connection with the re-trial recently granted to Phillip Goodwin, convicted murderer of J. J. Patterson, Los Angeles bond broker, was announced today at the office of District Attorney Z. B. West Jr.

West at present is confined to his home with influenza and is not expected to be in the office again for another week. He has been under a doctor's care for several days. It is expected that on his return the work of preparing the ground for the Goodwin case may be taken up.

During West's absence Chief Deputy District Attorney L. W. Blodget, with Deputy District Attorney Sam Collins and S. B. Kaufman are carrying on the work of the office.

INQUEST WILL BE MONDAY IN DROWNING CASE

With the body of a woman, found floating in the sea off San Clemente yesterday positively identified as that of Mrs. Katherine Colvin, 43, 1244 East Anna street, Bell, who was drowned Thursday evening when a fishing boat overturned off Capistrano Beach, Coroner Charles D. Brown today set an inquest for 1 p.m. Monday.

The inquest will be held at the Smith and Tuthill funeral parlors where the body was taken after being found by R. Kovalsky, fisherman, of San Pedro, who reported he found it in the kelp beds near San Clemente. He brought it to Balboa in his boat.

According to information gained by officers today, Mrs. Colvin was on her first lobster fishing trip when she was drowned. He was a friend of Rufus Narbon, 32, who lives in the same block in Bell, it was said, and had asked him to take her fishing. Thursday the party left Bell, early in the morning for Capistrano Beach.

Mrs. Colvin was drowned when the small boat in which she, Narbon and L. L. McGregor, Los Angeles, were baiting lobster traps, the boat tipped over. Mrs. Colvin was drowned, Narbon was rescued and McGregor swam to shore.

The husband of Mrs. Colvin was in Santa Ana today making arrangements for the funeral which will be held following the coroner's inquest, it was said.

The condition of Narbon, who was taken from the water in a serious condition, was reported greatly improved today at the Orange county hospital, where he was taken. He suffered from exposure and shock, attending physicians said, but he has recovered sufficiently to be taken home today, it was said.

Reverting to the tax problem, now being studied by Governor Young's commission, Rosenshine said:

"Our California system of taxation is wrong in theory because it creates two classes of taxpayers who are at perpetual war. The theory is that all state government support shall be derived from corporate franchise taxes, public utility taxation, etc., and that city and county taxes shall be raised on real estate and physical values."

The main result of this division of interest is that the people are always willing to increase the expenses of the state, not realizing that when the state's income under the present rates of taxation is exhausted, those rates must either be increased or an ad valorem tax be levied by the state on the people at large. Also, the people do not realize that a large part of the taxes which support the state are passed on to the people in rates."

McCoy, Dado To Clash January 17

LOS ANGELES, Dec. 10—Johnny McCoy, recognized flyweight champion of the world by the California Athletic commission, and "Speedy" Dado, Filipino sensation, will fight at the Olympic here January 17 in a title bout, it was announced today.

TAKA CHANCE
IT'S FIXED SO YOU CAN'T LOSE
WALKER'S

JUDGE DECIDES SON OF SLAIN WAGE CASE ON MAN IS FOUND DECEMBER 16 RAVING MANIAC

Following a lengthy argument in which Chief Deputy District Attorney L. W. Blodget opposed the granting of a demurser in the case of H. W. McVey, Huntington Beach oil operator, charged with grand theft of wages, the time for answering arraignment had been continued today to December 16, while Superior Judge Homer G. Ames has taken the arguments under advisement until that date.

McVey is before the court in two cases. The demurser in one and a motion to strike in another were before the court yesterday when Blodget and McVey's attorney argued the matter in an attempt to define the cause of action in which the oil operator will be tried.

The Long Beach firm of Wood and McArthur, representing McVey, is trying to have the charge reduced to a misdemeanor. Only recently the failure to pay wages amounting to more than \$200 became a felony and it on this basis that Blodget has brought the case before the court.

In the meantime, nothing in the ways of important clews have developed in the murder investigation, Howard said.

Mrs. Amelia A. Meagher, executive secretary of the Orange County Tuberculosis Society, will be pulpit guest Sunday evening at Spurgeon Memorial church and will tell the story of the Children's Health Camp.—Adv.

THE REGISTER'S AUTOMOBILE NEWS

FEDERAL ROADS IN U. S. TOTAL 64,209 MILES

*Joyriders In
State Steal
18,115 Cars*

Covesick youth needing transportation for petting parties appropriated 80 per cent of the automobiles stolen in the state last year, according to a report of the division of motor vehicles.

It is stated that flaming youth out for its sling but lacking resources was responsible for 18,115 cars stolen during the year. Besides removing the machine from the owner's supervision, the bold youngsters heaped coals upon the fire by helping themselves to the accessories before abandoning the car in order to meet expenses for the rest of the evening.

Drivers are warned by the division and the theft bureau of the Automobile Club of Southern California to lock their automobiles at all times to protect themselves from thieves, and to avoid parking in dark, out-of-the-way places.

The figures are taken from the annual report of the U. S. bureau of public roads, made public today, in its annual report to congress, and are cited by President J. Borton Weeks, of the American Motorists association, to show the unprecedented progress that is being made in road building throughout the United States.

"The progress made will be viewed with satisfaction by motorists throughout the country," President Weeks declared. "Approximately 10 years have elapsed since the program was authorized, but another 10 years will see it progress by leaps and bounds and the motorist everywhere will gladly contribute his share in the way of gasoline taxes, towards the furtherance of the national highway plan. It means prosperity for the country."

The report contains many figures of interest to the motorist. The official motor registration on January 1 of this year was 21,889,898 cars and trucks, of which, if evenly distributed over the 185,772 miles of federal aid highway system, would mean a registration of 118 automobiles on each mile of road.

The rapid growth of the automobile is seen from the fact that the January 1 registration was more than twice that of 1921, the year in which the federal aid system was designated. A total of 45,9 miles of bridges was completed during the year, which, if added to the other bridges constructed under the program, would make one bridge 167.6 miles long. In addition to this total, there are now under construction bridges having an aggregate length of 64.5 miles.

During the fiscal year ending June 30, the total construction on the program was \$305 miles, of which 195.6 miles were completed in California. The total federal aid program in California calls for the construction of 4771 miles, of which 1365 miles have been completed. The total cost of all federal aid roads completed to date in the state has been \$37,590,843, of which the federal government's share was \$18,275,993.

IMPORTANCE OF SAFETY STRESSED

The importance which the automobile has assumed in the life of the American people is evidenced by the attention given by leading health officials throughout the country to the need of new development in motor construction to meet the present day requirements of safety, performance and roadability from the broad social standpoint. In letters to Percival White, engineer, a number of health officials have expressed themselves on the importance of improvement in safety and protection for motorist and public, and agree that the development of a motor car with an unusually low center of gravity, due to having the body and frame in one solid unit, and double steel construction of the body would be helpful factors in producing such greater safety.

CONGESTION IN GREAT BRITAIN CAUSES WORRY

Great Britain, with only one-tenth the number of automobiles that are in the United States, is already worrying about saturation.

But Great Britain has a far different situation than that which exists across the Atlantic. First, the island which takes in England, Scotland and Wales covers an area of 88,745 square miles, which is about one-thirty-fifth the size of the United States. Since its 2,000,000 automobiles are only one-tenth the number in America, the number of automobiles per square mile is far greater in Great Britain than in the United States.

Second, and most important, the total road mileage in this country is 178,000 miles, while that in the United States is over three million miles. In Britain there are two miles of road to every square mile of area. In the United States there is less than a mile of road to every square mile of area.

The result is that the 2,000,000 automobiles scooting over the 178,000 miles of road in Britain are more congested than the 20,000,000 motor cars on the 3,000,000 miles of road in the United States. Most of these cars, as in the United States, congregate on

a small proportion of this road mileage, which makes the problem of traffic congestion so much the more difficult.

The United States can double its road mileage and just about approach the situation in England. For in Britain distances already are close and not much more room is left for highways.

WOOD, DISC WHEELS FOR STUDEBAKERS

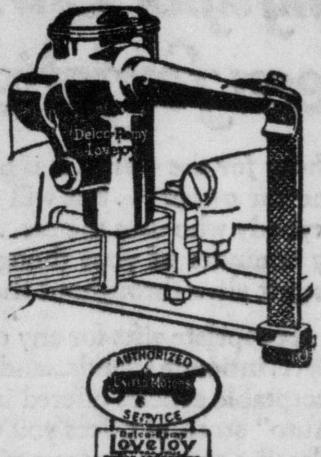

The commander, Studebaker's automobile that recently traveled 26,000 miles in less than 23,000 minutes, will hereafter be available in either wood or disc wheels, according to H. D. Riley, local Studebaker dealer. The announcement also includes the cars of the dictator line of Studebakers.

"Either wood or disc wheels may be obtained now on commander and dictator models," said Riley. "There is a difference of \$50 between the two wheel types, the wood wheels being the least expensive."

SAN LUIS OBISPO MAN IS ARRAIGNED

F. F. Franke, San Luis Obispo, formerly a resident of Santa Ana, was arraigned before Justice Kenneth Morrison yesterday afternoon on a charge of non-support of a minor child.

He was arrested in San Luis Obispo Thursday afternoon by Harry Carter, deputy sheriff and brought to court. The preliminary examination has been set for December 13, at 9 a. m., and bail was fixed at \$500.

Mrs. W. M. Todd, Franke's mother-in-law, is the complaining witness, it was said.

H. B. MAN JAILED
HUNTINGTON BEACH, Dec. 10.—P. S. Stewart, 35, of this city, was given his choice of paying a \$200 fine or spending 60 days in the Orange county jail, when he was haled before City Police Judge Chris Pann yesterday. Stewart pleaded guilty to a charge of being intoxicated. He was unable to pay the fine and was taken to the Orange county jail.

SUFFERED WORST SEASON
Wallace Wade's football team at Alabama suffered its most unsuccessful season this year since Wade has been in charge there.

SCOUT MASTER SCHOOL BEING PLANNED HERE

In preparation for an active and successful year, organization of a scoutmaster's training school is being planned for January 17, at which time it is expected a large number of men will be enrolled for the training course. Last year two courses were conducted with an enrollment of approximately 50 men from all sections of the county.

According to Roland E. Dye, scout executive, it is expected 40 men will enroll in the first class. It is probable the course will be more intensive than those of the past.

Pointing out that 10 or 15 new troops are scheduled for organization in the early part of the year, Dye said at least 10 or 15 men will be required to take the beginners course. A different course will be given for men who have had experience as scouts.

The training committee, under the leadership of Scout Commissioner H. G. Nelson, is preparing a program for the new courses. Other members of the training committee are Karl Parks, Edmund Murphy and A. J. Twist.

The course will be approved by the national office and certificates will be issued by the national and local councils to those who satisfactorily complete the course.

La Habra To Have Boy Scout Troop

The American Legion at La Habra has assumed the sponsorship of the Boy Scout troop there which has been under the leadership of the Kiwanis club for the last five years, it was announced today by R. E. Dye, scout executive. A new committee will be organized and it is expected that the troop will have a new scoutmaster and assistant and be ready for active work by the first of the year.

The new cabin at La Habra is proving very effective, and approximately 50 boys are trying for membership. It is expected there will be a large waiting list when organization is finally completed.

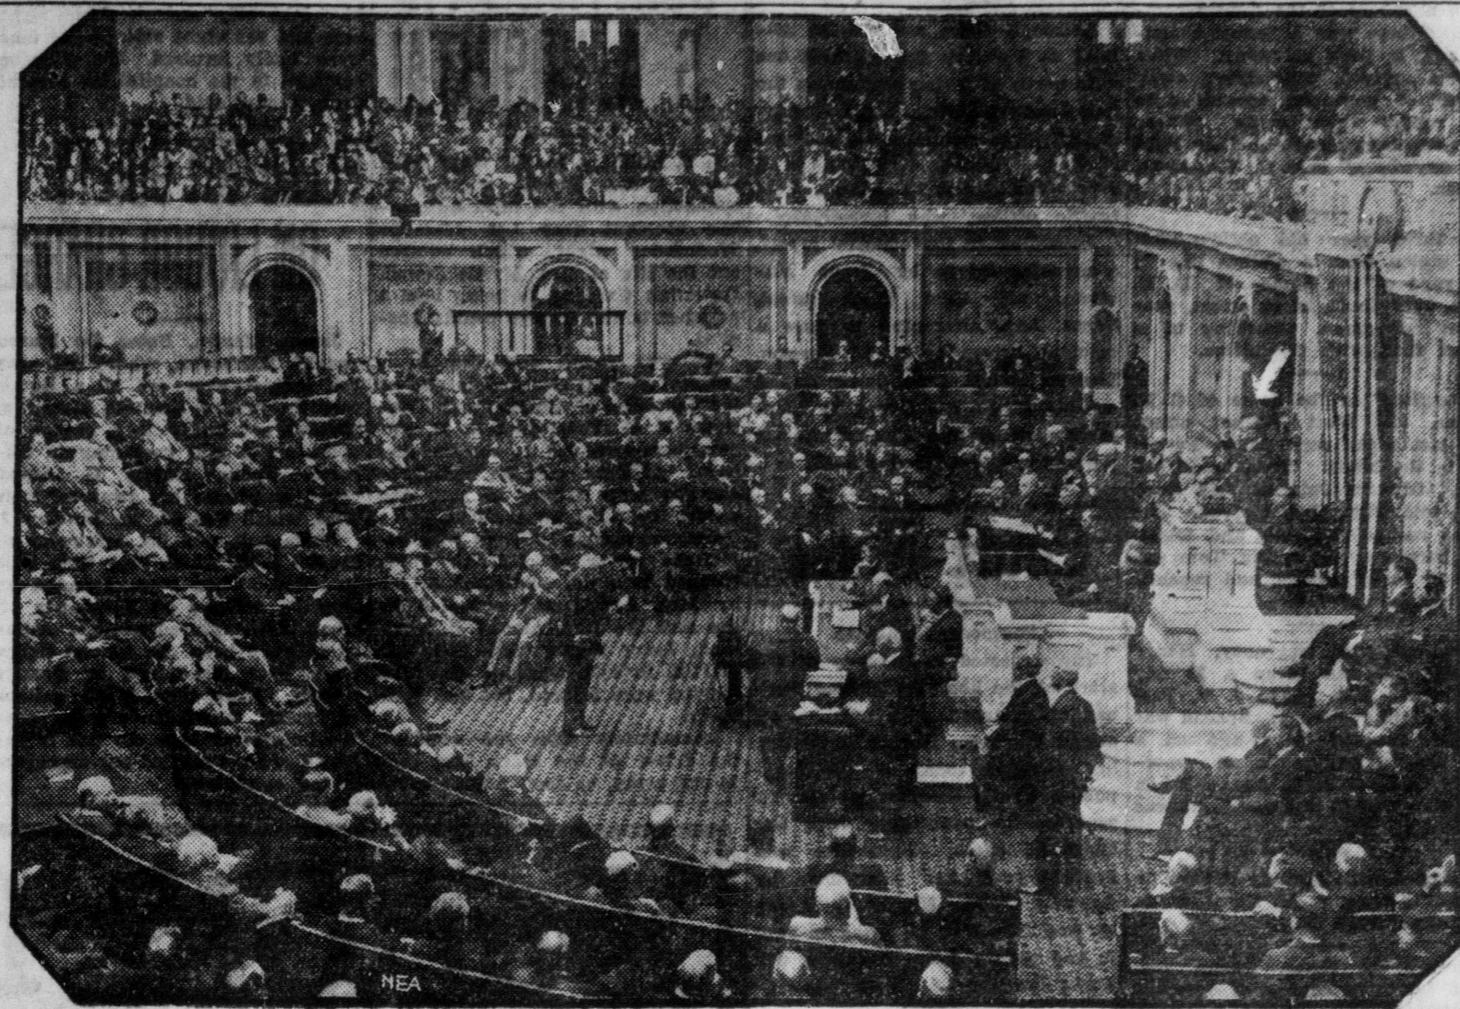

FACES DEPORTATION
BROOKLYN, N. Y., Dec. 10.—Mrs. Ella Benson Mackenzie, born in this country 44 years ago, faced deportation because she was the wife of a Scot. Renewals of her Visa have been refused.

WALKER'S TOMORROW

SPEAKER IS SWORN IN AS CONGRESS OPENS

This graphic picture shows the swearing in of Nicholas Longworth of Cincinnati as speaker of the House of Representatives. The arrow points to Longworth. In the center, the white-haired congress man, Thomas S. Butler of Pennsylvania, oldest member of the House in point of service, is shown reading the oath. Congressman Butler is the father of Brigadier-General Butler of the Marine Corps.

If you know what "he" wants, you are lucky

But if you don't—this store is your lucky star. EVERY DAY from December 26th to December 1st we do nothing but wait on men—and because we know our business and because the man you are trying to please knows his—he is laying low this month expecting you to buy the fine things that are closest to his heart.

Give Her the World's Champion Car

JUST two bright keys in a dainty jewel case! But no Christmas package ever held a greater treasure of happiness—for out in the drive stands a smart, trim Studebaker Commander—and those keys make it her own.

What pleasure you'll take in giving her this world-champion motor car—the car that climaxed its championship career by traveling 25,000 miles in less than 23,000 minutes! This dramatic run was made by strictly stock Studebaker Commanders under the supervision of the American Automobile Association. Nothing else on earth ever traveled so far so fast.

Neither she nor you may be interested in the high speed which The Commander is able to maintain for long distances. But you are interested in the sturdy design which made possible better than a mile a minute for a distance equivalent to a circuit of the world. Such stamina spells utmost reliability on your trips across town or across the continent. It means long life, low maintenance cost and superlative service.

There's justifiable pride that you and your wife will take in driving a car which has so conclusively demonstrated its ability as the "world's champion." You'll sense this pride when you step on the accelerator and flash ahead of the crowd; when you "zoom" up hills or "step-out" on the open highway.

And what joy to show The Commander to her friends, for its beauty of line and finish win instant admiration.

Drop in today and we'll give you the Keys. Her Commander will be at your door Christmas Eve or Christmas morning—whatever you say. Then no one's wife will have a happier Christmas than yours!

NEW LOW PRICES

The Dictator	• • • •	\$1165 to \$1345
The Commander	• • • •	1495 to 1745
The President	• • • •	1795 to 2250
Erskine Six	• • • •	895 to 965

All prices f. o. b. factory, including more than \$100 worth of extra equipment

Important—The initial payment on any Studebaker or Erskine car, if purchased under the liberal terms of Studebaker's "Pay-as-you-go" plan, is only a little more than the cost of an assortment of the usual Christmas trinkets. If you are interested in this plan ask your nearest Studebaker dealer for particulars. If you have a car to trade in, it may serve as the first payment.

WHITTIER GLEE CLUB TO SING IN S. A. CHURCH

COUNTY BANKERS HEAR FRUIT FACTS

Tomorrow night's services at the First Methodist Episcopal church will be distinguished by the presence of the Whittier College Glee club, a musical organization of 25 members, under the direction of R. Q. Hockett, and with Meredith Brown and Mark Gates as business managers.

The young men will have charge of the entire program which will begin at the usual church hour of 8 o'clock, and will include a "sermonette" by the Rev. George Warner, pastor of the church. The opening number will be Cadman's "The Builders" by the club, followed by a violin solo by M. R. Starbuck. Soloists will be Messrs. Gordon Berger and Ringland, their numbers including "Jesus Lover of My Soul," "Nobody Knows the Trouble I've Seen" (Burleigh) and to parts in various of the choruses.

Among the choruses programmed is "A Comforter Came to my aid" by Nevin, "The Hunters' ad Hallo" by O'Hara, and "Alma Mater." Hawaiian trio numbers will be played by Messrs. Ellis, Ellinger and Starbuck, and there will be duet and quartette selections, and a talk by Ezra Ellis, president of the organization. Other officers of the club are Bert Tomlinson, pianist; Gordon Berger, vice-president, and Harry th. librarian.

FOOTBALL SCHEDULE FORMALLY APPROVED

PORTLAND, Ore., Dec. 10.—The men said "yes" again here when faculty representatives of Pacific Coast universities and leges in the Coast conference proved the 1928 football schedule drawn up by coaches and graduate managers.

The decision came, however, after many anxious hours and for a time the faculty advisors threatened to scrap the elaborate schedule of 27 conference games, and to opt a radical football policy of their own.

Friday the faculty men declined to approve the schedule, laying it on the table. The matter was taken up again today and after a discussion which lasted for hours behind closed doors it was approved without change.

TWO ARRAIGNED IN DELINQUENCY CASE

Charged with contributing to the delinquency of a minor, S. A. Conlin and Mrs. Ruby Tinker, alias Ruby Bartol, residents of Talbert, were today arraigned before Justice of the Peace Kenneth Morrison. They were arrested this morning.

Bail in each case was set at \$1500 and their preliminary examination set for December 15, at 9 a.m. The complaining witness in the case is Howard Linestead, a neighbor, officers said.

According to the complaint, the couple have been living together without having been married, thereby contributing to the delinquency of Gretchen Bartol, a 15 year old girl, who is asserted to have resided in the same house.

Police News

FULLERTON, Calif., Dec. 10.—The size of an orange at shipping time may be told well in advance by a series of measurements, Dr. Dean Weynick of Orange Growers' association laboratories told members of the Orange County Bankers' association here last night.

Dr. Weynick presented charts prepared after 40,000 measurements of growing oranges.

Harold E. Walberg, county farm advisor, declared "the more money you spend on your orange groves, provided you mix brains with your expenditures, the better groves you will have."

The huge amount of citrus fruit consumed in the United States each year was indicated by Paul Armstrong, assistant general manager of the California Fruit Growers' Exchange.

If every individual in the United States could be persuaded to eat one more orange each year the consumption of citrus fruit would be increased 1500 carloads," he said.

ARRESTED IN DELHI ON ASSAULT CHARGE

Francisco Mendoza, 28, Delhi resident, was lodged in the county jail yesterday afternoon, charged with assault with a deadly weapon.

He is alleged to have taken several shots at another Delhi resident several days ago, after the two had staged an argument at the Mendoza home.

Officers Jemison and Ryan of the sheriff's forces are credited with the arrests.

NO ONE HURT WHEN THREE AUTOS MEET

Police were called to the home of G. Cratsenburg, 722 South Van Ness street at midnight last night when members of the family complained there was a "strange" automobile in their driveway. When officers arrived, they drove away a pair of spooners, according to the report they made. "These spooners have gotten so they might just anywhere," said G. V. Adams, officer.

A three year old child's coat was stolen from a clothes line in the yard of the home of D. E. Silva, 1815 South Birch street, yesterday afternoon, according to a report filed with the police.

"Burglars" in the home of C. F. Carter, 927 West Walnut street late last night sent police hurrying to the home. "He's up in the attic," Officers Peterson and Dean were told when they arrived. The police rushed the attic and found, not burglars, but a big Tom cat that in some manner had reached the top of the house.

Charged with vagrancy, Henry Spacek, 28, was given a 30 day jail sentence in Judge J. F. Talbott's court yesterday. Spacek was arrested several days ago on a like charge and given an opportunity to leave Santa Ana, so when officers arrested him again, he was ordered to jail.

Charged with parking his car in a loading zone, A. H. Theal, Santa Ana, was fined \$2.

Mrs. J. R. Kiser, Tustin, was fined \$2, on a charge of overtime parking, in police court yesterday afternoon.

Charged with parking his machine in a pedestrian crossing, C. E. Skaggs, Santa Ana, was given a \$2 fine in police court yesterday.

On a plea of guilty, Earl Waffle, Santa Ana, was fined \$15 in police court yesterday.

\$20,000 ESTATE LEFT TO WIDOWER

The entire \$20,000 estate of Elizabeth Barton, who died December 4, is left to the widower, Benjamin S. Barton, 827 South Main street, by the terms of the will, filed for probate today. The children are to have a life estate in the property and, if Barton marries again, the estate is to be divided equally among the children and the widow.

The heirs are H. G. Barton, Casper, Wyoming, Lyman S. Barton, Wichita, Kansas, both of whom are sons of the deceased, and Gladys M. Virkler, of Carthage, New York, a daughter.

PRISONER IS CONFINED IN S. A. HOSPITAL

A search by sheriff's officers, together with Adams resulted in their finding Hallberg in the Ramona hospital at San Bernardino. Officers said that he refused to talk of the injuries he has received.

At the local hospital it was said that he suffered severe injury to his right side and that his right arm and the right side of his face were badly bruised. He will be confined in the hospital for several days, it was said.

PLEAD NOT GUILTY ON LIQUOR CHARGE

James Martin, Peter De Marco and H. Hainsohn, whose bail was the largest ever set in a liquor case by Justice Kenneth Morrison, pleaded not guilty to a charge of operating a still yesterday in Superior Judge Homer G. Ames' court, and today are awaiting their trial, which was set for January 3.

Their bail was set originally at \$10,000 each, which they were able to make. They were arrested by sheriff's officers on November 12, when they captured what is claimed to have been the largest liquor plant ever discovered in Orange county. More than 11,000 gallons of mash were uncovered near Westminster, where the trio is believed to have carried out manufacturing operations.

Court Notes

Postpones Sentence

The expected appearance of the stork at the home of Natalia Hernandez, charged with stealing an automobile from Robert K. Carson, had resulted today in the postponing of the time for his serving sentence in connection with the supposed crime. Hernandez was granted probation yesterday by Superior Judge Homer G. Ames, on condition that he spend 90 days in the county jail. The term will begin January 5.

Given Probation

Henry Steele, after pleading guilty to a charge of non-support, is today at liberty after the granting of his request for probation by Superior Judge Homer G. Ames, to cover a two-year period. Steele told the court he had not supported his family because he had been in debt, but that he intended to do so in the future.

Seeks Judgment

John C. Cain and Helen C. Cain today filed an action in the superior court to secure judgment for \$5150 and supposed unpaid royalties of \$3194.60 from John H. Peacock and others.

Asks Divorce

Durwood O. Theriot filed a divorce complaint today against Mary Theriot, alleging that she deserted him. They were married in 1924 and separated in 1924.

To Probate Will

Joseph McKenney filed a petition today asking for the probate of the will of Louvenia McKenney, who died last May, at Laguna Beach. The estate is alleged to be worth \$5100. Five sons, five daughters, four grandsons and one granddaughter are named as heirs.

The "World's Best Brakes"

—you'll find them on the WOLVERINE

Four-wheel, hydraulic, internal, two-shoe brakes are regular equipment on the Reo Wolverine as they are on the Reo Flying Cloud. There is no better brake; automotive engineers who know and test all kinds, will tell you this.

You can prove it for yourself. Try a Reo Wolverine—stop at any speed—on any road. Note how quickly and how smoothly you stop, without jar or discomfort to passengers, without strain on the car. Stop it on a slippery pavement—you can't skid a Wolverine with these brakes.

Note particularly how accessible the brake pedal is. You don't have to lift your foot to reach it, you don't have to push the pedal down whole inches before the brakes begin to take hold.

Wolverine brakes will continue to be just as effective after thousands and thousands of miles as they are the day you try them first. The fact that they are hydraulic obviates the necessity for equalizing adjustments—they're always ready to work. The fact that they are "internal-expanding" means that the brake drum and the brake shoes are protected from water and dirt. The fact that they are "two-shoe" brakes makes them equally effective whether the car is going forward or backward.

And Wolverine brakes are typical of Wolverine quality throughout. Drive one yourself—you'll find it's the kind of car you'll like to own.

BEACH RECALL FIGHT CARRIED TO HIGH COURT

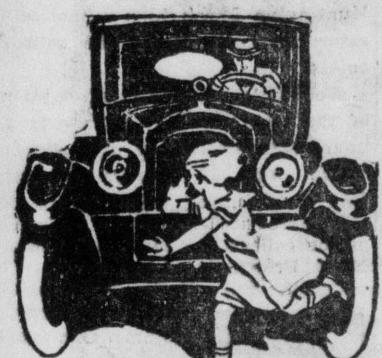

The Seal Beach recall court battle, recently carried to the Supreme court of California by Burr Brown, city attorney, will be decided on briefs, it was learned today following the refusal of the higher tribunal to dismiss the case. A decision is expected in 60 days.

The opinion was divided in not allowing the motion for dismissal, the majority of the court holding that it had been the policy not to be technical when a litigant might be injured. Brown's case rests on a technicality and was lost before Superior Judge E. J. Marks here, when it was held that Brown had stipulated that a writ of mandate issue ordering the recall election.

A Seal Beach newspaper has just declared that the refusal to dismiss the case merely postpones "the fatal day" for Mayor R. E. Dolley, J. R. John and C. O. Wheat, the three councilmen against whom the recall movement is directed.

"Just so long as they continue a policy of despotism, the people will rebel, continuing the fight to finish," the paper asserted.

Stickpin Missing;
Has Girl Submit
To X-ray; Found!

SPRINGFIELD, Mo., Dec. 10.
Having discovered that his \$1000 diamond stickpin was missing from his tie, a prominent local business man compelled his dance partner, Rita Johnson, to accompany him to the police station.

Denying her escort's accusations that she took the pin, police summoned a surgeon, and the young woman was hurried to a hospital, where an X-ray was taken.

The photograph revealed the missing gem in the girl's stomach, the surgeon reported.

Her escort, whom she said was a married man, refused to prefer charges against Miss Johnson.

The opinion was divided in not allowing the motion for dismissal, the majority of the court holding that it had been the policy not to be technical when a litigant might be injured. Brown's case rests on a technicality and was lost before Superior Judge E. J. Marks here, when it was held that Brown had stipulated that a writ of mandate issue ordering the recall election.

A Seal Beach newspaper has just declared that the refusal to dismiss the case merely postpones "the fatal day" for Mayor R. E. Dolley, J. R. John and C. O. Wheat, the three councilmen against whom the recall movement is directed.

"Just so long as they continue a policy of despotism, the people will rebel, continuing the fight to finish," the paper asserted.

JOPLIN RANCH PURCHASED BY TWO L. A. MEN

Announcement was made today of the sale of the 300-acre Joplin ranch, located in Bell Canyon, by J. C. Joplin, county treasurer, to J. E. Hare and J. R. Starr, prominent Los Angeles oil men. The consideration was said to have been \$30,000.

The sale of the property is of unusual interest to property owners in Orange county, in that it shows the remarkable increase in the value of property of this sort on one hand, and because of the history connected with this piece of land formerly owned by Joplin.

Starr and Hare expect to make a playground of the 300 acres and have announced plans to stock the ranch with various birds and wild animals. The property at the present time is a hunter's paradise, it is said. It abounds in deer and birds, and because of the fact that it always was well supplied with water, offers a most desirable location for a hunting lodge and playground as the new owners expect to make, it was said.

J. C. Joplin homesteaded on property adjoining the 300 acres, arriving there in 1875. This property contained 576 acres and has for the past 12 years been in the hands of Mrs. M. Justus, Los Angeles. Joplin sold it 14 years ago and Mrs. Justus acquired it a short time later.

With the sale of the 576 acres, Joplin bought the land he procured from the government. He purchased the John Fox and the S. T. Miller ranches adjoining, and lived there for a number of years. This is the property he has sold to Hare and Starr.

The ranch is located 26 miles east of Santa Ana and is part of the Cleveland National forest.

FIFTH AND SPURGEON STREETS

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

ADD TOWN SEDAN TO CHRYSLER LINE

Announcement is made by the Chrysler Sales corporation of the addition to its new "72" model of a town sedan, said by its manufacturers to be one of the smartest cars ever produced by their factories.

In addition to the performance, appearance and easy riding features which have created a record breaking demand for the entire "72" model since its appearance, a few weeks ago, the town sedan incorporates a number of improvements in trim and finish that give it a distinction all its own," R. W. Townsend, local dealer, said.

BEST SINCE VILLA

Ignacio Fernandez, Philippine featherweight, who has been going good among the topnotchers of this country, is probably the best fighter from the islands since Pancho Villa.

The precision which long has been recognized as meaning excellent performance and long life of an automobile power system has the same bearing on an automobile's body and appointments, for the majority of automobile purchasers today first note a car's appearance. That is the belief of Mark Lacy, sales manager for the Cadillac Garage company here, representatives of the Cadillac and LaSalle motor cars.

"Of course," Lacy explained, "when the car finally is taken out on the road its driver begins to notice the performance of its engine, but the only comments we have received have been ones of satisfaction, such as we always have received from Cadillac owners."

LINES OF CARS DRAW BUYERS, ASSERTS LACY

"has spurred manufacturers, in the last few years, to a new goal—that of bettering their car's appearance, with classy body lines and appointments.

"That endeavor never was more pronounced than when General Motors first produced its companion car to Cadillac, the LaSalle," Lacy added. The sales manager believes, he said, that the instantaneous and continued popularity of the LaSalle, since its initial appearance, has been due to the massive beauty of its design, its many well appointed conveniences and expensive hardware.

"Although," he pointed out, "the LaSalle's engine is of that standard which has made General Motors one of the leaders in the automotive world, it appears that the car's appearance is what attracts its many satisfied owners in the first place.

And Lacy should know, for every day of the week and every week of the year he speaks to prospective buyers and points out the features of his line.

"Keen competition," Lacy says,

8 HOURS AND 34 MIN. LA to Phoenix 484 MILES via Yuma

10 HOURS AND 12 MIN. Phoenix to LA 441 MILES via Blythe

18 HOURS AND 46 MIN. Round trip going to Yuma returning to Blythe 925 MILES

CLEAVING the bitter cold of empty highways in the dead of night. Roaring down shimmering desert trails under a blazing sun. Laughing at jarring, smashing road shocks. Shaking loose with a disdainful snort the clutching fingers of hub-deep sand. Turning, twisting, stopping, spurting with the sure-footed agility of a polo pony. On and on for 18 hours and 46 minutes. Bettering one record (via

Yuma) by 1 hour and 46 minutes; bettering another (via Blythe) by two hours; and establishing for the first time a round trip Phoenix record within 24 hours.

This stock roadster had no expert mechanics in handy pits waiting to render aid. When it left Western Union, Los Angeles, it was on its own. And it proved conclusively that it is entitled to the honor of having been chosen by the Society of Automotive Engineers as their 'ideal American car.'

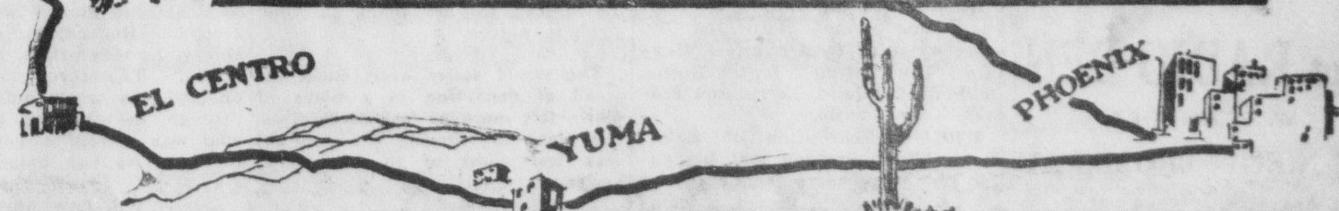

Timed by Western Union; Driven by non-professionals. Union Gasoline, Pennzoil; Pilot-Ray road light used. Car carried extra gas tank, large vacuum and heavy duty Lovejoy shocks—otherwise it was strictly stock.

SPORTSMATTER

BY
FRANK GETTY
UNITED PRESS SPORTS EDITOR

Thirty-two nations will be represented at the ninth Olympiad at Amsterdam in 1928.

Some of them are ambitious to dethrone the United States from the peak of world athletic supremacy.

As a matter of cold, hard fact, it can't be done. Not at the next Olympic Games. The United States will send to Amsterdam a team which can be prevented from winning the championship by nothing short of a ship-wreck.

There is more to the Olympic Games, however, than the lone idea of victory.

The nations which will compete at Amsterdam next summer are: United States, Great Britain, France, Germany, Canada, South Africa, Austria, Belgium, Denmark, Spain, Sweden, New Zealand, India, Finland, Norway, Hungary, Brazil, Egypt, Chile, China, Portugal, Poland, Peru, Switzerland, Turkey, Czechoslovakia, Jugoslavia, Letland, Luxembourg, Lithuania, Haiti and Holland.

Of these nations only Finland, Germany, Sweden and Great Britain are likely to furnish serious competition for the United States, with Norway, Canada, South Africa, France and Czechoslovakia gathering a few points here and there.

The Swedes think they have a good chance this year. Erik Bergvall, manager of the Stockholm stadium and member of the executive board of the Swedish Association of Gymnastics and Sports, believes his country will gather in quite a few points at Amsterdam.

He mentions Arne Borg, the great swimmer, whose marvelous ability will not, however, affect the issue in the track and field games. It is with these that we concern ourselves for the moment.

Aside from Edvin Wide the distance runner, Sweden's track and field performers are little known. Yet in 1924, at Paris, the Swedes finished third, behind the United States and Finland.

There is O. Skjold, an Eskilstuna cop, who is expected to perform prodigiously in the hammer throw.

As for the Dutch, eight nations beat them at the 1924 Olympiad, and they are anxious to do better this next year. Being upon their home grounds, or canals, the Netherlanders may be expected to do well.

German sports critics are confident that Germany will win points in the 100, 200, 400, 800 and 1,500 metre running events, as well as in the 40 and 1,600 metre relays. These in addition to points picked up in the broad jump, discus and javelin should give Germany second place, they believe.

TRELEAVEN IS WALTER KINNEY TOO GOOD FOR MAY PLAY FOR H. B. RING FOE COUNTY OUTFIT

Neal Treleaven pasted Rastus Flores flush on the nose in the middle of the second round of the scheduled three round main event at "Red" Hamilton's Athletic Club at Huntington Beach last night and Flores was groggy and apparently trying to hang on to the ropes when the referee raised Treleaven's hand for a technical knockout.

Treleaven was in better condition, had a longer reach and was more experienced and lighter on his feet than Flores.

Harry Allen proved too much for Danny O'Hearn in the semi-wind-up, the fight going only as far as the middle of the second round.

The special event, with Pete Wuchetich and Zeyad Chavez in the title roles, proved the best fight of the evening.

This Chavez boy, one of Midget Gonzales' boys, is no slouch and his fight proved that he could take them or give them equally well. Wuchetich apparently had a lot more experience but was a little short on the punch and Chavez was given a well earned decision.

Billy Siris and Joe Sears, 150 pounds, were both in poor shape, lacked speed and a slow fight resulted. Sears had Siris on the floor twice for the nine count in the second when the referee gave the fight to Sears.

Norman Newman, colored, out-fought Everett Carr in the second spot and could have put him away without effort at any time after the first round.

Pat Kelley, a black Irishman, spent most of the time backing away from Joe Danggs in the curtain-raiser. He was out on his feet in the middle of the third and the fight went to Danggs.

Danny McDonald was the third man in the ring.

SAN FRANCISCO, Dec. 10.—Jimmy Duffy was fined \$50 and suspended until January 1 by Athletic Commissioner Charles F. Traung. Duffy's failure to make weight in a recent fight with Joey Silver and his tactics in the fight brought the action.

DON WOODINGTON TO PILOT DONS

PREP EYES ON GAME BETWEEN SEMI-FINALISTS

Orange County Fans Keenly Interested in Match as Fullerton Gets Winner

SANTA MARIA, Calif., Dec. 10.—Although rain fell here early today, the skies gave promise of clearing before Huntington Park and Santa Maria took the field in their Southern California high school football elimination game.

The eyes and thoughts of Orange County high school football followers were concentrated on Santa Maria and Bakersfield today as four teams of young gridmen played football games that was to decidedly color the 1927 champion-ship race.

Huntington Park meeting Santa Maria and Stockton playing Bakersfield on the latter's field were the contests under surveillance, while Fullerton in the south and San Mateo in the north sat tight, already guaranteed semi-final games with the victors in today's encounters.

Fullerton beat Covina to enter the finals and San Mateo swept like a thunderbolt through the prep in that neighborhood.

Parkers Like to Pass

Huntington Park, a speedy outfit featuring a passing attack with Mashburn hurling the oval to the elusive Arbelbide, enjoyed a perfect season featured by an 18 to 0 win over Pasadena.

Santa Maria packs power and speed and has lost but one game this year—that 6 to 0 to Bakersfield in a practice tilt.

The strong Drillers are recognized as the kings of the San Joaquin valley and Stockton has had its own way in the district around the Sacramento river.

The winner of the Santa Maria-Huntington Park fracas must tackle Fullerton a week from today while the victor at Bakersfield is scheduled for a tilt with San Mateo in the same day.

Title Game in L. A.

The winners, according to Harry Moore of Long Beach, head of the C. I. F., probably will decide the champion of the state in the Coliseum in Los Angeles December 24.

"Shorty" Smith, coach of the Fullerton squad, was in Santa Maria to "scout" both the Saints and the Spartans. The Orange County league champions went through their set-to with the Covina Colts in good shape and none of Smith's tribe of Indians will be unavailable for the Coliseum joust with today's winner.

LaSalle Given Unpopular Draw

HOLLYWOOD, Dec. 10.—After being outboxed for the full ten rounds in his bout with Dick Hoppe, Glendale welterweight, at the Legion stadium here last night, Bobby La Salle, Los Angeles, was given an unpopular draw.

Charley Borth is pretty sure to get the nod from Manager Ellis tomorrow, however, as Kinney has not been doing enough work to be at his best whereas young Borth has looked better in every start with the Countians.

Ike Danning, who goes up to the champion Pittsburgh Pirates this spring, will do the receiving services and the rest of the specialty personnel, including Red Burger, Jean Arroues, Les Haserot, Ed Daley, Perry Callahan, Carpenter and Gordon will be in action.

Cy Williams, for two years an outstanding favorite with local baseball fanciers while he was toiling for "Dutch" Trickey's old conglomeration at the Irvine crossroads, will be in the cab for the P. E. tribe and his battery-mate will be Copeland, an experienced leaguer.

REPUBLIC SUPPLIES FACE WOODMEN TOMORROW

Two up but many to go, Joe Rodgers' Republic Supplies fill a series engagement with the Modern Woodmen, a Los Angeles ball team, at Huntington Beach tomorrow.

This will be the Supplies' third game in the new Rio Hondo league, both of the Orange county delegations other games being winning ones. Santa Rita was downed by a substantial count first and North Long Beach was taken care of in a satisfactory manner last Sunday.

"Scrappy Joe" Rodgers expects to use his regular layout with Herb Salveson on the ridge and "Buster" Callan behind the log.

Some sort of a jinx seems to be pursuing Donie Bush as a big league manager.

Last season he won a pennant for Pittsburgh in his first year as a National league pilot. It was a bitter struggle to the very finish. His tired out team was no match for the Yankees, losing four straight games.

Winning a pennant usually puts the successful manager on the top of the world. Not so Donie Bush, because in the interests of discipline he was forced to bench a popular favorite, "Kiki" Cuyler, which took the edge off his victory.

When Bush first benched Cuyler he burned his bridges behind him. He must win the pennant to escape the wall of the angry mob. When he failed to use Cuyler in the world series, he again burned his bridges, and this time drew the fire of the fans because of the defeat of his team in four straight games.

The world series over, Bush instead of departing in a blaze of glory, left more or less disgruntled. His fight in winning the pennant was lost sight of in the back-field, composed of juniors, returns to college intact.

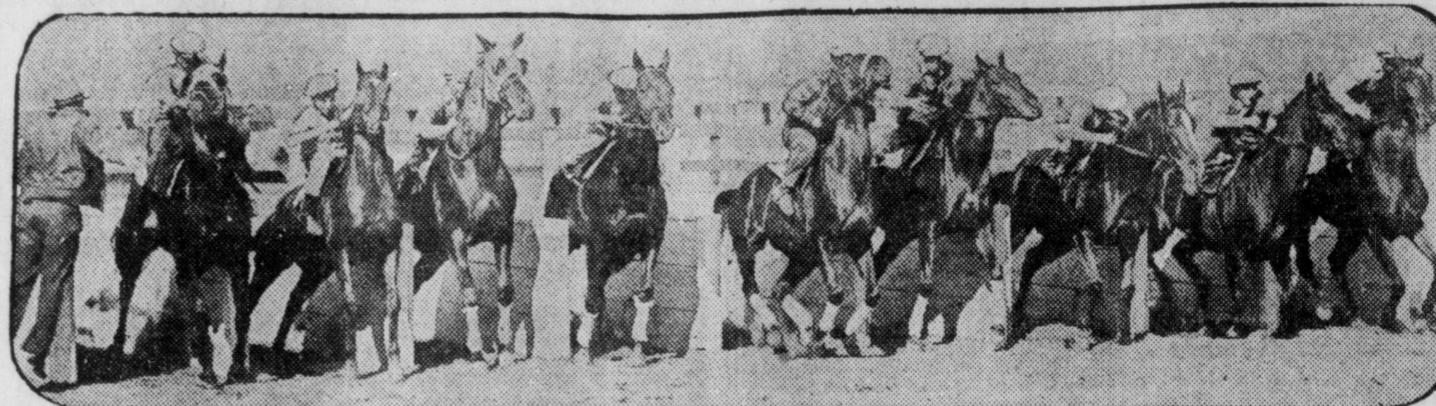

With the exception of Exley, Coach "Fox" Staunton lost his entire line. Prospects for next year are bright only in that the back-field, composed of juniors, returns to college intact.

Gossip Over Trade

Regardless of who was wrong

NO CHANCE FOR THEM TO BEAT GUN UNDER THIS SYSTEM

There'll be no unnecessary delay nor injuring of horses on American race tracks if all tracks use this system of starting races. Mars Cassidy, famous starter, has invented a scheme to get the horses away from the barrier that will eliminate jumping and false starts and also make injury less possible. His scheme provides separate stalls for each horse to line up in before the barrier is sprung. This photograph shows the new scheme being tried out at Tijuana.

McEWAN STAYS AS COACH OF WEBFOOTS

PORTLAND, Ore., Dec. 10.—Things may be wrong with Oregon football but there is nothing wrong with Captain John J. McEwan, University of Oregon coach, was the verdict returned last night at a meeting of the Portland Alumni association.

Rumor had it that a faction of the alumni would ask for the removal of McEwan. Instead the former Army coach received unanimous endorsement.

Parkers Like to Pass

Huntington Park, a speedy outfit featuring a passing attack with Mashburn hurling the oval to the elusive Arbelbide, enjoyed a perfect season featured by an 18 to 0 win over Pasadena.

Santa Maria packs power and speed and has lost but one game this year—that 6 to 0 to Bakersfield in a practice tilt.

Gossip Over Trade

Regardless of who was wrong

or right in the now much dis-

cussed Cuyler episode, I do know

that Bush during his long years

of service in the American league

was always a square shooter.

It certainly required the courage

of one's convictions to take the

stand Bush did in benching Cuyler.

Once more Bush has invited

criticism by trading Cuyler to the

Chicago Cubs for Second Baseman

Adams and Outfielder Scott.

Adams is an established player,

a very capable performer, while

Scott's true worth is yet to be determined.

Since the closing of the deal I

have been asked a great many

times as to who got the better of

the transaction. Baseball trades

are more or less of a gamble, of

course later featuring a decided re-

versal of form.

THE PACKARD SIX 5 PASSENGER SEDAN

\$2285
less the factory

Your used car will make the first payment on a Packard Six

THE average value of the used cars turned in on all Packard Sixes purchased this past year was over one-third the cost of a new Packard.

So if you own an average car you may come in, select the Packard Six model and color which pleases you most and drive it home without one cent of cash outlay. Further, if your present car has the average market value our allowance on it will serve to lower the twelve monthly payments which will make you the owner of a Packard Six.

At most your monthly payments on a Packard will be no more than \$40 or \$50 higher than a half price car of far less beauty, distinction and comfort. And your satisfaction in Packard ownership will last five times as long as it takes you to make those slightly higher payments.

Why not decide today to own the car you have always wanted? If you will make up your mind to keep your new Packard as long as you will really want to keep it—it will cost you no more. Buy a five-year car.

COUNTY HEALTH BUREAU PLANS BEACH SURVEY

HOOVER FOR PRESIDENT BOOM GETTING UNDER HEADWAY IN CALIFORNIA REPORTS SHOW

By CLEM WHITAKER

Staff Correspondent, Santa Ana Register
SACRAMENTO, Dec. 10. The "Hoover for President" boom is rapidly getting under full headway, with all present indications pointing to the selection of the California cabinet members as this state's "favorite son," according to political meteorologists in the capital.

One of the latest and most significant reports from the Herbert Hoover camp, incidentally, is that Lieutenant Governor Burton Fitts has been tendered the post of campaign manager for the secretary of commerce in California.

Fitts, however, has given no definite answer on the proposal, it is reported. Acceptance of the campaign management in the California presidential campaign would mean his definite retirement from the senatorial race next year.

Hoover sponsors, headed by Mark Requa in the north, and Ralph Arnold in the south, are said to have launched a pre-campaign survey of the state and alignments in the capitol already are being made.

State Controller Ray L. Riley is out with the first definite pronouncement for Hoover, which he links up with the forecast that the cabinet member will sweep California and go back to the Kansas City convention with a solid California delegation.

Riley, who has recently returned from a trip east, also is authority for the statement that Hoover is strong in the west, east and south, but has failed to develop the proper strength in the middle-west.

While officials connected with the state administration give no indication of how they will stand in the Hoover boom, other elective officers including State Treasurer Charles G. Johnson and Secretary of State Frank C. Jordan are reported ready to board the Hoover bandwagon.

In Southern California, according to state gossip, the "Hoover for President" drive is on in full force, having gained new momentum since the issuance of a second statement by President Coolidge interpreting "I do not choose to run" as meaning just that and nothing else.

Selection of Kansas City as the convention city, it is further pointed out, has its silver lining, like most clouds, at least for the Hoover camp.

The traditional prejudice against nominating a "favorite son" of the convention state now has no chance of bobbing up to wreck the Californian's hopes, the political leaders explained, and San Francisco's loss might be considered Hoover's gain.

Bettering the record from Los Angeles to Phoenix via Yuma by an hour and 48 minutes, bettering the record from Phoenix to Los Angeles via Blythe by two hours, and establishing a round-trip of 18 hours and 46 minutes for 325 miles with a stock Reo flying cloud roadster, was the accomplishment last week of two non-professional drivers of Los Angeles.

The Reo checked out at Western Union station in Los Angeles at 1 a. m., and was back again at 9:12 p. m. the same day, making the total elapsed time 20 hours and 12 minutes. Of this, one hour and 26 minutes was "time out" in Phoenix during which the oil was changed in the flying cloud, the two gas tanks were filled and the drivers ate lunch.

According to Joe Finley, local Reo dealer, there are no records showing a complete round trip within 24 hours heretofore. Nearly all of the record runs to Phoenix take the route via Yuma on account of the bad roads via Blythe and the necessity of taking the ferry across the river.

REO IN RECORD RUN TO PHOENIX

INSURANCE RATES ON GARDNERS CUT

The reduction of 25 per cent on theft insurance, 20 per cent on accidental collision or upset insurance, 20 per cent on bodily injury or death insurance, 20 per cent on property damage insurance and 50 per cent on insurance covering accident to owner or guests, has just been announced by the Gardner Motor Co., Inc., of St. Louis. The new low rates are in accord with the revised schedule recently promulgated by the Automobile Underwriters' conference, the insurance body which establishes the rates used by virtually all insurance companies. A saving of several hundred thousand dollars annually to Gardner owners is forecast by Gardner motor officials as the result of this drop in rates.

Gets Heart Balm From Second Wife Of Divorced Hubby

CHICAGO, Dec. 10.—Mrs. Libby Rubin, divorced wife of former Alderman Samuel Rubin, of Milwaukee, was awarded \$12,500 damages against Mrs. Bertha Vinograd Rubin, his present wife, by a jury in circuit court here in a \$50,000 alienation of affections suit.

Attorneys for the second Mrs. Rubin immediately filed motion for a new trial.

The first Mrs. Rubin charged the defendant was responsible for the shift in Rubin's affections which made a divorce necessary.

NOTED IMPOSTER AGAIN ARRESTED

NEW YORK, Dec. 10.—The versatile Clifford Wyman is under arrest once again—this time for posing as a lawyer without having been admitted to the bar. He was charged also with selling a list of names, the property of some one

else, to the American Insurance company, of New Jersey.

Wyman previously posed as a naval officer before the late President Harding, as personal physician to Pola Negri at the time of Rudolph Valentino's death and gained the confidence of Dr. Leon, noted surgeon of Vienna, former Mayor Hyatt, Senator Copeland and Princess Fatima of Afghanistan.

First Unitarian Church

Eighth and Bush Streets—Rev. H. E. Kellington, Pastor
Services Begin at 11 o'clock.

Subject of Morning Discourse

"ONE OF GOD'S OWN NOBLEMEN,"
REV. DR. STRUTHERS'

The power of liberal religion is here splendidly evidenced in the ability to produce the very highest type of character. What is the great end of religion—to produce the Christ-like character, or to conform the mind to unchanging belief about Jesus?

Emphasis will be placed on the remarkable fact that great and good men of liberal religion are out of all proportion to the number of their membership. Study class, 10 A.M.

SECTION TWO

AUSTRALIA AND
UNITED STATES
ARE COMPAREDCantata To
Be Given By
Church Choir

ANAHEIM, Dec. 10.—Plans are being made by the choir of the Calvary Baptist church, for a Christmas cantata, "King of Kings," by Daniel Protheroe, to be given in the church in connection with the regular evening service Sunday, December 18, at 7:30 o'clock, according to announcement today.

Mrs. Winifred L. Fisher is director of the choir and the following well known soloists will carry the principal parts of the score: C. C. Patterson, R. E. Campbell, Mrs. Edith Kemper, Mrs. Helen Hansen and Miss Elizabeth Bartlett.

A total of 25 voices will be heard, it is announced. The public is invited to attend the program.

The district proposed to be annexed to Anaheim lies along both sides of East Center street between the city limits and Placentia avenue and is said to have approximately 100 residents at present.

The boundaries of the district follow the continuation of the center line of West Broadway, were it continued to Placentia avenue, thence north along the center line to North street and thence south to the city limits again.

Mayor Carl Leonard appointed Councilman Miller and City Attorney Holden to make a check of the names on the petition. If found sufficient, an election will be called, it is announced.

LA HABRA, Dec. 10.—A motion picture theater is projected for La Habra, it was reported today, following the purchase by J. A. Scruggs, of Los Angeles, of the northeast corner of Central avenue and Main street.

It is understood that Scruggs plans to start construction of the theater within 30 days. He paid \$7000 for the lot, which was acquired from J. G. Launer.

Scruggs made a careful survey of the district before he purchased the property, he told Launer.

P.T.A. ORGANIZED
IN BOLSA DISTRICT

BOLSA, Dec. 10.—Organization of a Parent-Teacher association was effected at a meeting here Thursday afternoon at the school house.

Following adoption of the charter and by-laws, the following officers were elected: Mrs. Roy Head, president; Miss Stoneman, vice president; Miss Oldfield, corresponding and recording secretary; Mrs. John McMillan, treasurer; Miss Cosner, auditor; Mrs. Sterling Price, historian; Mrs. Dan Head, parliamentarian.

Committee appointments were Mrs. Stella Farnsworth, Mrs. Earl Gardner, Mrs. Walton, membership, and Mesdames Willoughby, Pysden, Fairchild and Warne, entertainment.

Mrs. Aaron Wilcox was named chairman of the press committee.

The association will meet the second Thursday in each month.

Mrs. J. V. Kelsey, county president; Mrs. George Greer, county extension chairman, and Mrs. De Le Verne, county chairman of P.T.A. grades, were present, and assisted in creating the association.

Seal Beach Will Hear Serenaders

SEAL BEACH, Dec. 10.—The Cadman Serenaders of Long Beach will present a program Tuesday evening in Seal Beach at the Community auditorium. The organization is directed by William Conrad Mills.

The entertainment is being given under the auspices of the Ladies' Aid society.

SANTA ANA, CALIFORNIA, SATURDAY, DECEMBER 10, 1927

PAGES ELEVEN TO EIGHTEEN

ANNEXATION IS AIM OF AREA NEAR ANAHEIM

ANAHEIM, Dec. 10.—An investigation preliminary to the calling of an election on the annexation of approximately 288 acres of land, located directly east of the Anaheim city limits, is being made by Councilman Louis E. Miller and City Attorney George F. Holden, as a result of action taken at the regular meeting of the Anaheim city council.

This move was initiated when a petition, bearing the names of 30 residents of the affected district, was presented asking annexation as a means of securing better domestic water service.

The district proposed to be annexed to Anaheim lies along both sides of East Center street between the city limits and Placentia avenue and is said to have approximately 100 residents at present.

The boundaries of the district follow the continuation of the center line of West Broadway, were it continued to Placentia avenue, thence north along the center line to North street and thence south to the city limits again.

Mayor Carl Leonard appointed Councilman Miller and City Attorney Holden to make a check of the names on the petition. If found sufficient, an election will be called, it is announced.

ATWOOD OIL WELL FLOWS 90 BARRELS

ATWOOD, Dec. 10.—Flowing 90 barrels a day, Bradford No. 7 of the California Petroleum company, was the only new producer in the Richfield district this week. Depth of the well is 4703 feet.

Heartwell No. 3 is drilling ahead at 3945 feet after several weeks of fishing.

Shell oil is still drilling on Allee No. 1, the present depth being 5220 feet.

Chicksan is down 4146 feet with Mathis No. 2. Herndon Petroleum is drilling Lemke No. 3 at 4145 feet.

The Standard Oil company has three wells drilling, Vejar No. 3 at 2455 feet; Locke No. 2 at 2965 feet and Moll Community No. 2 at 3227 feet.

The Union Oil company is drilling ahead on Chapman No. 28 at 4500 feet. Stern No. 5 is at 1706 feet. Stern No. 11 is in brown shale and oil sand at 4200 feet. No. 15 is in brown shale and oil sand at 4500 feet; No. 17 drilling at 1467 feet and No. 12 at 4307 feet.

The Union has one new well at Brea, Sterns No. 71, which has the rigging up.

SCOUT BUILDING PLAN IN ANAHEIM

ANAHEIM, Dec. 10.—As the first step towards bringing into a reality a plan, proposed here some months ago, for the establishment of a Boy Scout headquarters in Anaheim, Anaheim Scouts are planning to stage a benefit entertainment in the Fairyland theater the evening of December 20.

Seven Anaheim civic groups, the

Masonic and Elks lodges, the Anaheim post of the American Legion,

Knights of Columbus and the

Rotary, Kiwanis and Lions clubs

are co-operating in arranging for the event.

H. B. Students To Present Show Dec. 16

HUNTINGTON BEACH, Dec. 10.—Students of the local high school will stage their first annual public circus here next Friday night, it was announced today. The circus will feature acrobatic stunts, clowns and dancers.

The physical education department of the school is in charge of the program and the program will be made up of the work of the various departments.

H. B. WILDCAT WELL READY FOR OIL TEST

HUNTINGTON BEACH, Dec. 10.—A production test is to be made at 5220 feet at the Brower-Traveler well on the east side of town, it was announced today. The company is setting casing and has cemented the hole of preparatory to making the test. Formation encountered in the well is said to be different than that found in any portion of the Huntington Beach district.

Oil sand and shale approximately 80 feet thick has been penetrated by the company, it is reported. The company has been busy coring for the past several days.

If oil is found in the well the east side of town, which has rapidly been built up as the residential district, will be turned into an oil district. A number of tracts of land are under lease adjacent to the Brower well, it is said.

Shell oil is still drilling on Allee No. 1, the present depth being 5220 feet.

Mathis is down 4146 feet with Mathis No. 2. Herndon Petroleum is drilling Lemke No. 3 at 4145 feet.

The Standard Oil company has three wells drilling, Vejar No. 3 at 2455 feet; Locke No. 2 at 2965 feet and Moll Community No. 2 at 3227 feet.

The Union Oil company is drilling ahead on Chapman No. 28 at 4500 feet. Stern No. 5 is at 1706 feet. Stern No. 11 is in brown shale and oil sand at 4200 feet. No. 15 is in brown shale and oil sand at 4500 feet; No. 17 drilling at 1467 feet and No. 12 at 4307 feet.

The Union has one new well at Brea, Sterns No. 71, which has the rigging up.

ELIASON READY TO FLOAT SHIP

NORTHPORT BEACH, Dec. 10.—Capt. O. Eliason, deep sea diver, is ready to move the fishing barge Muriel from the entrance to Newport Harbor, it was announced today. Capt. Eliason has been working for months caulking holes in the huge ship and getting it ready to float off the sand bar.

In his labors the sea diver has had thrilling hand-to-hand fights with devil fish.

He is planning to take the ship into the harbor, where he will turn it over on its side and make permanent repairs to the bottom. He will ultimately sell the ship, it is reported.

The Union has one new well at Brea, Sterns No. 71, which has the rigging up.

WATER COMPANY AWARDS CONTRACT

SAN JUAN CAPISTRANO, Dec. 10.—The San Juan Water company expects to start work soon on the installation of concrete conduits and other equipment, a contract having been let to the Tustin Cement Pipe company for 1200 feet of 20-inch pipe.

HUNTINGTON BEACH, Dec. 10.—A jury disagreed over the guilt or innocence of M. W. McVey on trial here for defrauding a laborer of wages. More than two days were consumed in hearing evidence and selecting a jury. McVey was being tried in justice court. He is facing charges in the superior court for asserted non-payment of wages.

The case was reset for December 22, Justice Chris Pann demanding the evidence presented sufficient to call for a new trial.

BANNER YEAR FOR NEWPORT HARBOR SEEN

HUNTINGTON BEACH, Dec. 10.—With the entrance channel to Newport harbor is deeper now than it ever has been, according to a statement today by Tom Jay, harbor master. Jay recently conducted an examination of the harbor entrance. He reported the channel shifting slightly and much deeper than it has been for many years. Jay, in speaking of the condition of the harbor entrance, predicted a banner year for boating activities in the Orange county port.

Hundreds of boats are expected to visit the harbor this summer and many will make their future homes in Newport harbor, it is claimed. The annual trans-Pacific race to the Hawaiian Islands, which starts at Newport Beach this year, and the international star boat regatta, which is to be held in Newport Beach in August, are expected to bring hundreds of boats to the harbor.

During the past few weeks many inquiries have been made regarding anchorage space in the harbor. C. G. Van Hook, of Long Beach, recently asked permission of the city council to anchor a 300-foot schooner in the harbor. Van Hook plans to establish a marine tea room on the bay, it is reported.

Several yacht owners have made inquiries regarding the harbor entrance and anchorage space, according to Jay.

W.C.T.U. SECURES DR. WISE FOR TALK

GARDEN GROVE, Dec. 10.—Dr. Sara E. Wise, noted lecturer on temperance and moral subjects, will speak here December 16 at 7:30 p.m., it was announced today. Her lecture will be given at the Baptist church.

The Garden Grove W. C. T. U. is sponsoring the talk. Dr. Wise is speaking in a number of Orange county cities.

JURY DISAGREES IN WAGES CASE

HUNTINGTON BEACH, Dec. 10.—A jury disagreed over the guilt or innocence of M. W. McVey on trial here for defrauding a laborer of wages. More than two days were consumed in hearing evidence and selecting a jury. McVey was being tried in justice court. He is facing charges in the superior court for asserted non-payment of wages.

The case was reset for December 22, Justice Chris Pann demanding the evidence presented sufficient to call for a new trial.

CLERKS ADDED BY POST OFFICE FOR XMAS RUSH

HUNTINGTON BEACH, Dec. 10.—With Christmas mailing showing a steady increase in volume, plans have been made for the addition of three special workers to the Anaheim post office and other arrangements are being made for handling what is expected to be the greatest December business in the history of the local office, Postmaster J. H. Whitaker announced this morning.

Roy L. Pendleton will join the carrier staff of the office next Monday to assist during the holiday rush period and Paul Sloop and Paul Boiled have been given temporary appointments as clerks, also to begin next Monday, it is announced.

Through the courtesy of the Motor Transit Stage company, the post office is to have the free use of the former Motor Transit depot on North Lemon street as receiving station for incoming parcel post during the rush period. This additional room for handling the larger packages will relieve considerably the inevitable congestion of the main office, Whitaker said.

The fact that Anaheim postal business during the past year has shown a consistent increase over the year before, coupled with the fact that the month of November, just closed, showed no unusual activity, gives double promise of a heavy rush during the balance of the month, Whitaker said.

Postal receipts during the month of November this year totalled \$3826.22 or slightly less than the record for the same month last year, which was \$3834.1. The total receipts of the office for the 11-month period ending November 30 this year showed an increase of \$3,442.68 over the record for the same period last year, the comparative figures being, 1927, \$44,635.28 and 1926, \$41,192.60.

TIRES AT LOWEST PRICES

30x3 1/2, \$3.75; 33x4, \$6.50; 34x4 1/2, \$8.50; 31x5.25, \$8.25; 32x4, \$6.00; 32x6, \$8.50. All other sizes in stock. Gerwing's, 312 N. Broadway. Adv.

A turkey dinner is to be served at the Southern Seas club at 6:30 o'clock. The meeting is open to the public and a large attendance is expected.

Grove High School Will Give Plays

GARDEN GROVE, Dec. 10.—Three one-act plays are to be presented in the grammar school auditorium here December 15, it was announced today. The drama club of the local high school will stage the plays under the direction of Mrs. Irene D. Pringle. The high school orchestra under the direction of Miss Edna Mae Abbey will play.

The three plays include "Just Advertise" featuring Margaret Day, Anna Phillips and Orville King; "How the Story Grew," featuring Emma Lehnhardt, Ruth Fitz, Eleanor Schell, Velma King, Lucille Connaway, Frances Berry, Betty Newsom and Eunice Bragg, and "The Boob," featuring Harry Lake, Warren Van Peit, Anna Phillips and Elmer Ward.

The automobile used on Anaheim's four rural routes now covers a total distance of 156 miles, and serves a total of 1549 families or 20 families more than are served by the rural service of the Santa Ana post office, the next largest office from the standpoint of rural passengers, Whitaker stated.

The automobiles used on Anaheim's four rural routes now cover a total distance of 156 miles, and serve a total of 1549 families or 20 families more than are served by the rural service of the Santa Ana post office, the next largest office from the standpoint of rural passengers, Whitaker stated.

The extension of route four and the remarkable distances covered by all of the Anaheim rural routes are made possible by good roads, Whitaker said. Ten more families in the Santa Ana canyon district have been provided with daily mail delivery service as a result of this latest extension to route four, he said.

The new officers are as follows: Worthy matron, Mrs. Jaunita Snyder; worthy patron, Caryl B. Snyder; associate matron, Miss Anne Fliske; conductress, Mrs. Lucile Van Loonan; associate conductress, Mrs. Martha Landell; secretary, Mrs. May Feagan; treasurer, Mrs. Lura Schofield; marshal, Mrs. Ruth Hunt; chaplain, Mrs. Alice Maude McCann; organist, Miss Marjorie Raines; Adah, Mrs. Lucy Sims; Ruth, Mrs. Dorothy Kilgore; Martha, Mrs. William Malite; Electa, Mrs. Florence Winters; warden, Mrs. Ruth Gunby; sentinel, William McLaughlin; flag bearer, Mrs. Minerva Shirley.

NEWPORT BEACH, Dec. 10.—Final plans for the open meeting of the Women's Civic league, to be held at the Southern Seas club next Tuesday, were made today. The meeting is designated as "international relations night."

Mrs. Earl Smith, of Anaheim, chairman of the international relations committee of the Orange County Federation of Women's clubs, will be one of the speakers on the program. Addison Van Loon, men of La Habra, university student and world traveler, also will speak.

A turkey dinner is to be served at the Southern Seas club at 6:30 o'clock. The meeting is open to the public and a large attendance is expected.

The case was reset for December 22, Justice Chris Pann demanding the evidence presented sufficient to call for a new trial.

Merry Gift Exchange
Enjoyed By Ebell
Section

Their annual Christmas party was enjoyed yesterday afternoon by the members of Ebell society's fourth household economics section, who gathered at the clubhouse for a 1 o'clock luncheon, served by the hostess trio, Mrs. Edward C. Erwin, Mrs. F. E. Moore and Mrs. R. E. Coulter.

A roast turkey menu was served, ending with steamed pudding and hard sauce. Tables were attractive with their scarlet candles rising from mounds of English holly, and with Christmas place cards and nut-cups.

Returning to the lounge, the section members devoted a few minutes to business conducted by the leader, Mrs. James Clark, and listened to a group of Christmas readings by one of the guests, Eleanor Young Elliott. But chief interest was centered in the fireplace, among whose sprays of holly, cotoneaster and evergreen, could be glimpsed many gaily wrapped packages. These were distributed, and each member received an attractive gift from some one other member.

It was announced that the next meeting of the section would be on Friday, January 13, with Mesdames S. I. Freble, T. F. Ham and Charles L. Johnson as hostesses.

All members of the section were present yesterday, and sharing the friendly occasion with them, were three guests, Mrs. F. E. Coulter, Ebell president, Mrs. Elliott and Mrs. Hardy of Redlands, a guest of Mrs. O. H. Umberham.

Roosevelt Staff Plans
Dinner and Theater
For P.T.A. Board

Expressive of the prevailing Christmas spirit, was the party planned by teachers of Roosevelt school, as a compliment to members of the executive board of the Roosevelt P.T.A., and held Thursday evening in the Ketner gold room.

Arriving guests were greeted by the teachers, standing in formal reception lines. The gold room was decked with smilax and poinsettias, and the long tables were brave in holiday array. Santa Claus place cards were used, and a delicious four-course dinner was enjoyed.

Covers were placed for the teacher-hostesses, Miss Verna Wells, Miss Eleanor Adams, Miss Pearl Camblin, Miss Gladys Campbell, Miss Margaret Grant, Miss Isabel Lindsay, Miss Maurine Mathes, Miss May Pulham, Miss Elizabeth Walker and Miss Martha Wirick, and for their guests, Mrs. Richard Cribaro and Mrs. S. H. Bradley, president and secretary of the P.T.A.; Mrs. U. L. Barge, Mrs. Marshall Keeler, Mrs. Park Ash, Mrs. Thermon Means, Mrs. Paul Kimball, Mrs. R. Dennis, Mrs. John McAuley, Mrs. E. J. Brannon, Mrs. J. T. Elliott, Mrs. Ray Wolven, Mrs. Perrung, Mrs. Frank Was, Mrs. Pimentel and Mrs. E. Boethling.

College Women Hear Interesting Speaker

A representative gathering of college women, members of the Orange county branch of the American Association of University Women, gave close attention to an excellent talk on "Colleges of the Near East," presented at Ebell clubhouse Thursday evening, by Dr. Andrew M. Brodin of the Near East Relief commission.

In his talk, Dr. Brodin emphasized the "international mind" which actuates college students and alumni of today, manifesting itself in the enthusiasm with which they interest themselves on the furthering of educational institutions in Syria, Turkey, Greece and Bulgaria of the Near East.

Musical numbers added to the program, and were furnished by Santa Ana junior college students.

The Junior College quartet, composed of Messrs. Charles Haas, Earl Jesse, Paris Edgar and Dick Wilson, sang two Christmas songs, "The First Noel" and "Silent Night."

Charles Haas sang "Little Town of Bethlehem" as a solo, and William Fox played a cello solo, Schubert's "Ave Maria" with Miss Helen Macartney of the music department, as accompanist. The musicians were directed by Miss Myrtle Martin, head of the junior college music department.

"Where is the shop?" wept Clowny cried. "And how much farther must we ride? If it is near, I'd like to walk right through this wondrous snow." One toyshop man then smiled, and said,

"Well, if you want to, go ahead. But, as for me, I'm going to ride. We've quite a ways to go."

Now, Clowny was a lazy lad. He quickly answered, "I'll be glad to ride upon the scooter, if there's room enough for all."

"The scooter will not do, I fear. There are too many of us here," replied the little toyshop man. Then he began to call:

"Come on, you reindeer, pick up speed. The sleigh you have is what we need!"

And then the Tines heard some bells tinkling near at hand. "Oh, look," cried Carpy, "There's the sleigh."

And, as came, they yelled "hurray!"

A pair of reindeer pulled it close.

Said Clowny, "This is grand!"

The reindeer stomped upon the ground, while all the Tines stood around. "Hop in," exclaimed the toyshop man. "We're ready now to go."

The Tines jumped into the seat, and one exclaimed, "This is a treat!" And soon the reindeer started off across the fluffy snow.

(The Tinymites reach the toyshop in the next story.)

(READ THE STORY, THEN COLOR THE PICTURE)

as it came, they yelled "hurray!"

Scouty cried. "We sure enjoyed our scooter ride. The soldier toy picked us up and brought us safely here. We'll help old Santa in his work, and you will find that we'll not shirk. But, what we do will not amount to very much, we fear."

"Well, merely do the best you can," replied one little toyshop man. "We have a lot of toys to build, and many things to paint. We'll all be working night and day. You will not find much time for play. I think you'll like our toyshop. It is really very quaint."

"Well, merely do the best you can," replied one little toyshop man. "We have a lot of toys to build, and many things to paint. We'll all be working night and day. You will not find much time for play. I think you'll like our toyshop. It is really very quaint."

YOST BROADWAY THEATER

In "The Love Mart," the picture opening tomorrow at Yost Broadway theater, Fitzmaurice shows sympathy for early French atmosphere with its romance of New Orleans a century ago. He gives Billie Dove a dramatic role, framing her beauty with richness and daintiness.

"People do not care how much a picture costs or how long it has

been in production," Fitzmaurice avers.

"The audience demands quality rather than quantity and if a director and his players give the screen a realistic, artistic, sincere performance, that is what the public wants. Originality and idealism are the advance guards of motion-picture progress. Not all pictures will permit innovations, but the director who sacrifices sin-

WEST END THEATER

John Barrymore in "Don Juan," coming to the West End theater Sunday for a run of two days, is an attraction that has been roadshowed in the principal cities of the country at \$2 prices and acclaimed by critics everywhere as one of the most notable photoplays ever screened.

Barrymore, who is acknowledged the greatest romantic actor of his day, fairly revels in the silken fascinations of the role of the great romantic lover. Amid scenes that range from an old Moorish castle in Spain to the glorious pagentry of Rome, the character finds the beautiful ladies of his heart's desire, and loves them exquisitely.

Among the beautiful ladies who appear with Barrymore are Mary Astor, Estelle Taylor and Helen Costello. Men in the memorable cast include Montagu Love, Lionel

Brahm, Nigel de Brulier, Gustav von Seyffertitz and Josef Swickard.

YOST BROADWAY THEATER
Many thousands of film fans who have followed George Sidney, the famous character comedian, through his numerous appearances in the role of a New York east side Jew will have the opportunity to witness him in what is said to be his greatest picture, "Clancy's Kosher Wedding," which is booked for the Yost Broadway theater, opening tonight.

Sidney's latest film is an hilarious comedy based upon the experiences of two rival clothing store proprietors, one Irish and the other of Hebrew extraction, both residing on the East Side, background of much real romance, humor and pathos.

WEST COAST-WALKER
Even Dolores Costello has never been quite so devastating, as she is in "The College Widow," now at the West Coast-Walker theater.

GRADE CROSSING PERMIT IS DENIED

SAN FRANCISCO, Dec. 10.—The application of the city of Burbank to construct a grade crossing over the Southern Pacific tracks, near Burbank, at an estimated cost of \$10,000, has been denied by the state railroad commission here today.

The commission ordered that an adequate subway grade separation be built, which will cost approximately \$131,000.

The Southern Pacific and the Los Angeles county grade crossing committee both had representatives at the hearing to oppose the application of the city of Burbank on the grounds that it would constitute a menace to the traveling public and would be a death trap to autoists.

Home Phone Firm Gets Permit To Buy Private Line

SAN FRANCISCO, Dec. 10.—The Home Telephone company, of Covina, Calif., has been authorized by the state railroad commission to purchase the San Gabriel private telephone toll line from Mrs. Jennie H. Follows, for \$500.

The commission at the same time ordered the Home Telephone company to put into operation two new telephone lines running to San Gabriel dam.

Wishing Shrine Is Given Tucson

TUCSON, Ariz., Dec. 9.—An ancient shrine, the origin of which is buried in Mexican folklore, has been given to this city by the owner of the property on which it rests. For sixty years or more the shrine has been kept lighted with candles burning day and night. They are replenished regularly by the poorer Mexican families of the district.

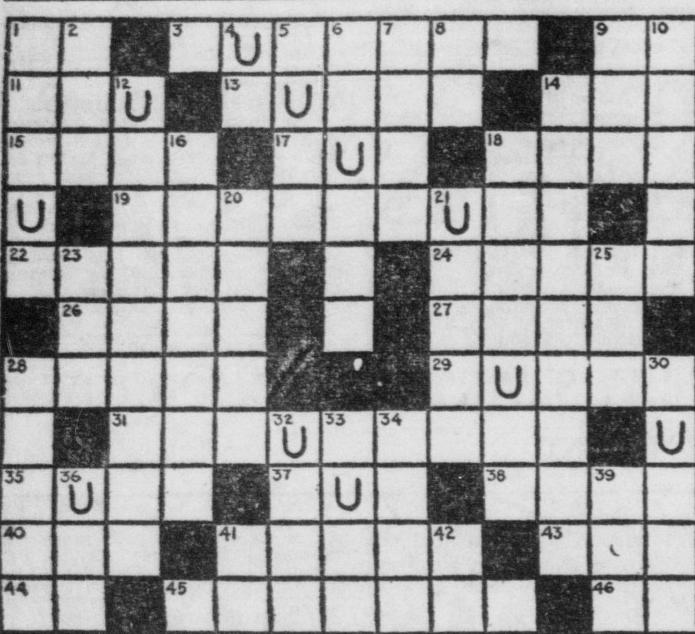

It is called the "Wishing Shrine" because of the legend that any wish made there will be fulfilled. To the unimaginative the spot is a mere cluster of tins, heavy with candle grease, in the Mexican quarter of the city. But to the believing it is a sacred spot.

Some say the shrine marks the spot where one of the padres, a well loved and holy man, was buried. Others say it is a grave of a heroic Mexican "bandito," a type of border Robin Hood who robbed the rich to give to the poor.

EVENING SALUTATION
Eschew the idle life,
Fee, flee from doing naught:
For never was there idle brain
But bred an idle thought.
—George Turberville.

WHAT IT MEANS

There is a contest started between leaders in the American Legion which is likely to agitate the ranks of that body from California to Maine. Its national commander, Edward E. Spafford, has declared that he is going to take a poll of the Legion and the Women's Auxiliary to learn their attitude upon the eighteenth amendment and the Volstead act. Former commander of the Legion, Gen. James A. Drain, declares that this is not going to be done, that no national commander has a right to establish the position of the American Legion upon any national question and this has been made so both by the fundamental law of the Legion and by precedent. We believe that the former commander, Gen. Drain, is right in maintaining that nothing on which the Legion members could seriously divide should be injected into this great organization so as to enable a majority on any matter of national policy in which all are interested as citizens to carry the influence of the whole organization for such a majority.

It is well that the Legion made provision to protect themselves from this catastrophe in their constitution and have bulwarked it by precedent.

Mr. Spafford, the commander, insists in his statement that the government should enforce the law but he also declares that "in a democracy no law should be enforced except such as has the approval of the majority." He then argues that our government, by endeavoring to enforce the prohibition act "resorts to a breach of the fundamental principles of liberty in order to enforce some law which has not the sanction of the best thought of the community."

It would appear from these statements and from the commander's proposition that he clearly is opposed to the eighteenth amendment and the Volstead act and a majority of the people of this country are opposed to it and he proposes to prove it by calling upon the Legion members to come loyal to his support. He of course affirms, as all men do who take this position, that the government must enforce law but he does this with the above qualifications and handicaps.

In support of his contention he says that the Eighteenth amendment was adopted by the acts of state legislatures and that a popular vote by the people never was held on the question. It is unfortunate for the American Legion that its commander mixes such strange mixtures of truth, sophistry, absurdity and foolishness together into one concoction. Amendments to the Constitution of our country are adopted by the method which is a part of the Constitution itself. No amendment to the Constitution ever was submitted to the popular vote. That is not the way the Constitution is amended. It is amended by ratification, after Congress has passed a resolution by two-thirds of the legislatures of the various states. The nearest approach to a popular vote upon the principle embodied in any amendment has been had upon the Eighteenth amendment. Nearly every state in the Union had in some form or other, this question before its voters as a direct issue and twenty-nine had adopted this same principle as their fundamental law, before the Federal government acted. This left only seven of the necessary two-thirds majority that had not yet done so and some of this seven, like Ohio, have since, by a popular vote, increased its majority on behalf of the principle in no uncertain way. So we would like to ask the Commander what he means when he uses as an argument that this amendment was adopted in regular Constitutional manner as though that were the reason why the amendment should not be trusted.

Then again we like to think of the American Legion standing in our great government for Constitutional procedure and if it gains facts, gain them in a manner where they will be of value to themselves and to the community, where they will be applicable to questions at issue. A referendum submitted to a group in the nation such as the American Legion will by no means determine anything as far as the nation is concerned.

It will not even determine how the American Legion itself stands. The American Legion, like any other cross section of the American people, has "drys" and "wets" in its membership. And unfortunately as in many other organizations in certain communities those who are prone to the "wet" side are rather in the ascendency in the organization leadership, as in other communities, those who are inclined to the "dry" view of things are in the ascendency. And whatever form such a referendum takes in the organization it is very likely that the group that is active in any locality will become most active in getting favorable responses to their views in this referendum. It is quite a different proposition than when people vote at the ballot box on some distinct issue, legal in character which will effect the actual organic law governing the state. The whole law building up the machinery for the insurance of a fair and complete election poll is entirely done away with in such a referendum so that even from the American Legion standpoint itself such a poll would be almost valueless. But even if it were of value, its result will have attached to it greater weight than it should have whether they vote "dry" or "wet" as majority.

If Commander Spafford assumes that this vote means anything, and the vote is concluded, he logically will determine that the nation, when it enforces the law, does so against the will of the majority and is destroying the fundamental principles of liberty, and then necessarily must choose between being loyal to the principles of liberty or to the government of his country. The Legion will not follow him in such custom we are sure. If the vote were "dry," of course he could consistently support the government because the government would be apparently, then in his judgment, standing by the principles of liberty. We believe for the purposes of determining any of these things to have such a vote is utter folly. It is the duty of Americans and the duty of our government to support and enforce the laws and the Constitution which have been regularly and legally adopted according to the method determined upon by the people themselves. And for any group less than the whole to unofficially determine that the government

and people are wrong because the majority of that group does not agree with them, is subversive to the principles of government itself.

The majority of all of the slaveholding states was opposed to the adoption of the fourteenth and fifteenth amendments. The majority of the membership of every liquor organization in America was opposed to the adoption of the eighteenth amendment. It is not a question of what the majority or minority of any organized body think about any law or constitutional provision that should determine anyone's actions. But good citizens will insist on obeying the law and that all others must obey the law as long as it is there and if they do not agree with it to frankly get out and use constitutional methods for its repeal.

The constitutional method of doing this is very clear. Some men have been working for it for years. First, a resolution must be passed by both houses of Congress providing for the repeal of the constitutional amendment. To this end Senators and Congressmen must be elected and upon this issue the people can vote. As a matter of fact upon this issue the people have been voting. "Wet" and "dry" candidates have appeared in nearly every district and in every district where the "wets" thought they had any show and the consequence is that the majority for the "drys" has been increasing in Congress at every election, rather than decreasing.

Discouraged by their failure to achieve anything through the constitutional method a tremendous effort is put forth to break down public sentiment by statements that the majority of the people are opposed to the amendment and attempts are being made to prove it by referendums that have no legal weight or significance and to which those who are satisfied with the law and the Constitution pay little or no attention. In other words it is a merry little whirligig conducted among the "wets" themselves with the great mass of the people looking on. The American Legion composed of that great heroic group of our young men who represented us in the great war should be the ones upon whom we depend for clear thinking, fearless acting, and patriotic endeavor.

Undoubtedly Commander Spafford will find that the Legion, as a whole, will not follow him in his proposed program.

Fighting Santa Ana

Harbor Herald

The ultimate destiny of Newport Beach is inseparably linked with the development of its harbor. Just how much the final development of the harbor will cost remains for the future to demonstrate, but it will run upwards of one million, possibly five or more. Our little city has already strained every resource to carry the load thus far, and it can do no more. Its credit is nearly exhausted and it must look elsewhere for funds. Attempts to obtain Federal aid have proved futile, and, until some factor in the situation is very materially altered, there is scant hope for assistance from such a source.

Quite recently Orange county has expressed itself twice as opposed to further bonds for harbor development, and has since given no evidence of a change of heart, although this may come in the course of time. The possibility which appears most alluring at the moment is the creation of a harbor district of yet undetermined boundaries, but one which must needs embrace Santa Ana. Unfortunately, a flaw has been found in the act authorizing such a district which would enable the county supervisors from districts which were not included in the harbor unit to control its funds. This may cause a delay till the act can be amended.

Recently considerable talk has arisen concerning possible annexation to Santa Ana, not only as a means of enlarging the credit of Newport Harbor, but as a surcease of the political ill from which the city is suffering. Just what the future will bring forth with respect to a political alliance of some sort with Santa Ana remains to be seen, but it appears certain that ultimately Santa Ana and Newport Beach will be bound by more real ties than a mutual interest in Newport Harbor. At the present time annexation seems rather impracticable. The city administration is opposed to it, and the public as a whole has not enough faith in the administration to trust it to complete the preliminary negotiations which must precede annexation.

Whether we obtain a county bond issue, enter into a harbor district alliance with Santa Ana, or in the course of a few years annex thereto, it is apparent that the good will of Santa Ana is of paramount importance to this community. How utterly unwise, therefore, to deliberately pick a quarrel with a neighboring city to which some day we must look for succor. Yet this is being done by certain selfish interests, who, quite possibly, as they believe, are furthering their personal interest by so doing.

The recent sale of the Santa Ana Register, it was thought, would terminate a feud of long standing between the local administration and that paper, but such was not the case. Mr. Burke, the new owner, was at once impressed by the potential value of Newport Harbor, and volunteered to further its development in any way he could. He furthermore expressed his desire to be on terms of friendship with Newport Beach. Because the Register chanced to publish a few facts in the course of its duty as a newspaper—facts which local politicians wished suppressed—Mr. Burke was at once made the target of administration abuse, thus suffering the fate of all who refuse to bend in their knees in servile obeisance to the local Tammany Hall.

Let's be friends with Santa Ana.

Health Topics

By DR. MORRIS FISHBEIN
Editor of Journal of American Medical Association

MENTAL DISORDERS MAY GO FAR BACK IN FAMILY

In a recent survey of health education for women, physicians have given an outline of the various mental types that exist in our population.

Actually there are available few studies of the normal person and of his mental condition. Apparently the normal person is mentally of an age of about fourteen years. He is likely to have various physical defects, particularly of the teeth and the tonsils, of body structure and of vision.

If his heredity is carefully studied, there is likely to be among his ancestors at least one person insane, one feeble-minded, one alcoholic, one syphilitic, or one epileptic.

Indeed, an old aphorism has it that every family has at least one black sheep and at least one person in its ancestry who was hung for crime.

Few persons approach an absolute average in the matter of emotion. Most of us are either over or under-emotional.

The child life of almost every person contains records of small thefts, innumerable lies, rather unusual sex experiences, quarrels with the family, the accumulation of debts on various occasions and other signs of misbehavior. If this is the standard individual, it is obvious that there is much for mental hygiene to do at present, besides looking out for the future.

He'll Do His Christmas Shopping Early

Just Folks

by Edgar A. Guest

A LETTER TO SANTA CLAUS

Dear Santa Claus, last night she came
With eyes aglow and cheeks afame,
And placed a letter in my hand
To mail to you in Fairyland,
Or at the Pole, where she's been told
You dwell among the icebergs cold.
And kissing her, I answered: "Oh,
That letter straight away must go!"

"Twas soiled and rumpled, sealed and stamped,
The baby printing badly cramped,
And as you might have well supposed,
With hugs and kisses it was closed.
I opened it and read it through,
And it was filled with love for you;
But here and there in letters bold
The Christmas gifts she wants it told.

I promised her I wouldn't fail.

To put that letter in the mail.

I'd sent it on today, but, oh!

I find I cannot let it go.

For you was meant that lovely note,

But it's the first she ever wrote.

And so those scrawls you'll never see—

I'm going to have them framed for me—

Now I am writing out in rhyme
The things she wants at Christmas time:
She wants a baby doll that walks,
And one that shuts her eyes and talks,
And all the lovely trinkets known
Which little girls delight to own.
This is the substance of her note—
I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—

I'm measuring to have them framed for me—

Now I am writing out in rhyme

The things she wants at Christmas time:

She wants a baby doll that walks,

And one that shuts her eyes and talks,

And all the lovely trinkets known

Which little girls delight to own.

This is the substance of her note—
